MAYBE THIS COULD BE FOR *you*

MCKENNA, started 2016

Before Younique I didn't have anything for just myself . . . something that was mine that I could escape to. I was super nervous to join because I wasn't a super social person. *There was NO WAY I was going to post pictures of myself on Facebook!*

But I thought to myself, what's the worst that could happen? I could find out that it wasn't for me or I could change my life. I chose the latter.

I work a full time job and I was nervous that I wouldn't have time. But I found very quickly that this was FUN for me. **It has completely instilled a confidence in me that I never knew I had.** The best thing about this business is that ANYONE can do this and change their life.

HEATHER, started 2014

Before I joined Younique I was struggling with depression and a huge lack of self-confidence and self-love. I've always been overweight and was teased/bullied about it and never felt beautiful or worthy.

I was really concerned that Younique was a scam because I had no experience with direct sales companies and I was worried about hidden fees. My husband and I actually read the entire contract before I joined. After realizing I only had to the initial \$99 for my kit, and no recurring costs, I felt relief and joined right then.

The best part of younique is the intrinsic value I get from it; feeling confident, sharing the ability to self-love with others, the positivity I feel everyday and sharing it with others.

TERI, started 2014

I have a busy life: a career at the VA, a Retired Navy Chief, a mother, a step mom and a grandmother, plus I just recently got my Ph.D. I needed something for just me, so I joined Younique. I was a little concerned about doing videos, but now I do videos almost every time I put my make up on. It's me in the raw. This is who I am and people see the real me and don't care if I goof up.

The best thing about Younique is getting paid within about 3 hours! We get paid even before Younique gets paid! What other DS company can say that!?!

MICHELLE, started 2013

As a mom of four, I was looking for a way to make money from home so that I could earn full-time income once my youngest started kindergarten and not have to worry about being on someone else's schedule.

My biggest concern with getting started was I wasn't a makeup person at ALL. ANY makeup I owned had been a gift from my sister.

But I thought, *what the heck - I would LIKE to learn how to do makeup.* And I

knew makeup was a smart, consumable business with a large market. I signed up without even trying the products and I found my lack of makeup skills wasn't an issue at all!

I couldn't believe that I was earning income ALL from my phone, almost 100% from Facebook. Now I love that I am home to see my kids off to school and home to welcome them back, plus the freedom to go on field trips or sneak in a lunch. And I can't complain about NOT having a boss!
