WELCOME TO THE WORLD OF GIN

Gin has an interesting & varied history, with fluctuating popularity. We are now in the midst of a new gin trend which has brought about numerous gins from old & new distilleries alike.

From award winning London Dry, to small batch artisan & New Western gins, the complex flavour profiles & intricate subtleties are drawing in those looking for a high quality & enjoyable drink.

New craft distilleries are producing gin in every way possible, creating unusual cocktails of botanicals & using the most innovative techniques at their disposal, with some brands going as far as to invent new production processes.

We have tried hundreds of these gins to bring you the very best from around the world.

We understand that the gin market is still growing & evolving so in addition to our core range of 100 gins you will always find something new & interesting to try.

We have chosen not to recommend a particular tonic or garnish with our gins (unless stated) as taste is very personal & subjective.

If you would prefer your gin served in a particular way or would like a recommendation, please ask your bartender who will be more than happy to create the best serve for you.

SHEFFIELD DRY GIN

Our very own Sheffield Dry Gin is made in small batches in a handsome copper still to ensure the highest quality every time.

This is the first gin to be distilled in Sheffield in over 100 years, a stone's throw from The Devonshire. The distillers (originally bartenders) have created a gin that compliments a wide variety of tonics & holds its own in any cocktail.

Sheffield Dry Gin uses juniper berry, coriander seed, angelica root & cassia bark - these botanicals make it instantly recognisable as a dry gin, giving off resinous pine & citrus notes.

Additionally we add fennel, cardamom & gentian root, giving our gin its herbaceous, dry, woody character.

A small amount of fresh grapefruit & lemon peel adds balance & brightness. Finally, a touch of Sheffield Honey & a dash of Henderson's Relish round off this wonderfully original Sheffield spirit.

You can purchase a bottle of our gin from The Devonshire to enjoy at home. Delicious served with tonic & a slice of orange.

NO. 209 USA - 46%

A contemporary classic; citrus & spice

6 O'CLOCK ENG - 43%

Smooth & juniper forward

Smooth yet full bodied; juniper forward with subtle peppermint

BEEFEATER 24

Beefeater 24 is a sophisticated blend of ingredients, made in the heart of London from twelve hand-selected botanicals, including Japanese Sencha & Chinese green teas.

This is a delicate interpretation of the classic London Dry style, & has inspired top mixologists

around the world in their creation of contemporary cocktails. The inclusion of teas in the botanical blend distinguishes Beefeater 24 from any other gin, helping to shape its unique aroma & smoothness, while the addition of grapefruit peel ensures that Beefeater's signature citrus flavour remains present in every sip.

BEEFEATER LONDON DRY ENG - 40%

Our 'house gin'; classic, clean & subtle with plenty of citrus

BOMBAY ORIGINAL DRY GIN ENG - 40%

Strong juniper & citrus; subtle woody floral tones

THE BOTANIST®

ISLAY DRY GIN

ISLAY DRY GIN

For this artisanal Islay gin the distillers use nine classic gin botanicals. Another twenty two local botanicals, hand-picked by their expert foraging team from the windswept hills, peat bogs & Atlantic shores of this Hebridean island of Islay, make this a highly distinct & unique gin.

This seasonal & exotic blend is then slow 'simmer' distilled in their unique & cherished Lomond pot-still, affectionately known as 'Ugly Betty' by their head distiller.

Betty prefers to work at low-pressure & won't be rushed, so the precious botanicals are gently coaxed into releasing their complex signature aromatics.

The result: a highly distinctive, complex, floral gin with outstanding finish & impeccable provenance; a breath of botanical Islay in every single glass.

We suggest serving with Franklin & Sons Tonic, & garnishing with lemon peel & a sprig of thyme.

BOMBAY SAPPHIRE ENG - 40%

Delicate with subtle citrus, rounded juniper & pepper spice

THE BOTANIST SCO - 46%

Responsibly foraged botanicals; complex, herbaceous & floral

Clean, crisp, aromatic taste adventure

CITADELLE FRA - 44%

Floral, exotic & harmoniously balanced; a real winner

BULLDOG
LONDON DRY GIN

BULLDOG LONDON DRY GIN

The base of Bulldog Gin is produced by triple distilling fine British wheat & water to ensure smoothness & purity.

The grain spirit is then distilled a fourth time when the unique blend of botanicals is added to the mix in their impressive pot still.

Careful testing with a plethora of unusual botanicals has resulted in Bulldog becoming one of the UK's finest gins. Most notably amongst these are Turkish white poppy seeds, Asian lotus leaves, Chinese dragon eye berries, French lavender & Spanish almond, all sourced identically year on year to ensure consistency & clarity.

CITADELLE RESERVE FRA - 44%

Inspired by French smugglers & aged in Cognac casks; rich & spicy

Fresh & floral; made from grapes

G'VINE NOUAISON FRA - 43.7%

Bold, complex & spicy; made from grapes

ELEPHANT GIN

ELEPHANT GIN

Elephant Gin is an award winning, premium gin of 45% ABV made with rare African botanicals. While its story started in South Africa, Elephant Gin is handmade in Germany with a focus on highest quality production standards. All ingredients are hand-selected, bottles custom-made, labels hand-written & production efforts controlled by working in small batches.

The idea for an African inspired gin evolved while reminiscing about the so-called 'sundowner' drinks after a day out in the South African bush. These sunset cocktails are a big tradition in South Africa – and more often than not they consist of a G&T.

The idea was backed by a mutual love of African botanicals & a realisation that these would make interesting additions to a premium gin alongside traditional botanicals such as juniper & orange peel.

On the nose this gin yields a subtle juniper aroma, with an undertone of mountain pine & other herbaceous notes. The taste is complex but strikingly smooth; encompassing floral, spicy flavours that can be enjoyed both straight & in a cocktail.

HALF HITCH ENG - 40%

Distilled at Camden Lock. Punchy citrus, herbal tea notes & black pepper

HAYMAN'S 1820 GIN LIQUEUR ENG - 40%

Juniper based, lots of sweetness; great in cocktails, try in our House Martinez

DRY YORKSHIRE GIN

Handcrafted in Bedale, North Yorkshire, Masons was created in a quest to make the perfect gin - delicious & different.

Creators of three fine gins (original, tea & lavender) Masons use fresh Harrogate spring water & British juniper from their very own bushes. The secret combination

of botanicals, careful small batch production & hand-numbered bottles creates a beautiful gin worthy of its name.

The flavour profile is truly exquisite. On the nose: saffron, glazed hot cross buns, lemongrass & aniseed. A delicious, smooth juniper-led gin with citrus notes.

TONIC, SODA & MORE

*A good tonic-to-gin ratio is 1/2 bottle per single measure.
Our larger bottles are great to share with a friend.*

1724 200ML

The name comes from the height of which the quinine is hand picked. Just as good on its own, nice & light with gin flavours shining through

BOTTLEGREEN CLASSIC 175ML

Incredibly light & understated, the perfect choice to experience the full flavour of the spirit

BOTTLEGREEN CLASSIC LIGHT 175ML

Made in the Cotswolds using local spring water & natural ingredients; adds a subtle flavour to help the gin to shine

BTW 200ML

Its golden hue is from the cinchona bark, used for its natural quinine content. Smooth & crisp with a little bitter sweetness

DOUBLE DUTCH 200ML

Subtle pink grapefruit notes with a juniper focused aftertaste to replace the usual bitterness

DOUBLE DUTCH CUCUMBER & WATERMELON 200ML

Watermelon's natural sugars bring warmth & shine to the traditionally fresh flavour of cucumber. Great with floral gins

DOUBLE DUTCH POMEGRANATE & BASIL 200ML

Fantastic with herby botanical or fruity gins, basil on the nose with a slight peppery finish. Enjoyable as a soft drink

DOUBLE DUTCH SKINNY TONIC 200ML

A zesty & rewarding tonic that helps round out the flavour of the gin, with subtle pink grapefruit & juniper berry

FENTIMANS 125ML

Packed full of citrus, this tonic water uses herbal & lemongrass extracts. The world's first botanically brewed tonic water

FENTIMANS 1905 HERBAL 125ML

A complex tonic containing a delicate mixture of floral & herbal flavours

FEVER-TREE 200ML

A very popular choice since the gin boom, it uses botanical oils with highest quality quinine from the 'fever trees' of eastern Congo. Designed for gin & vodka pairings

FEVER-TREE ELDERFLOWER 200ML

Bright, fresh & gently sweet. Made from carefully blending the essential oils from handpicked English elderflowers with the highest quality quinine from fever trees

FEVER-TREE LIGHT 200ML

A light version of the ever popular Fever-Tree tonic. Botanical distillates shine through to compliment & enhance your gin

FEVER-TREE MEDITERRANEAN 200ML

The addition of Mediterranean plant & flower oils is subtle on the nose with a punch of herbs on the pallet

FRANKLIN & SONS 200ML

Around since 1886, this natural tonic water claims its cinchona bark from Ecuador & is subtly bitter & sweeter than expected

FRANKLIN & SONS NATURAL LIGHT 200ML

A low calorie blend of sparkling spring water, natural botanical flavours with quinine & cinchona bark extract

FRANKLIN & SONS SICILIAN LEMON 200ML

A natural blend of sparkling spring water, lemons and natural botanical flavours with quinine

WHAT ABOUT THE WORLD OF VERMOUTH?

Immortalised in the 19th century in cocktails like the Manhattan, Negroni or Martini, vermouth is still used in this fashion today. This isn't to say vermouth isn't being drunk neat or on ice, because it is, France & Italy pour it from a chilled bottle into a glass & in some regions of Spain bodegas will pour them straight from a barrel for after-work "aperitivos". In Argentina & Chile it is so widely enjoyed their happy hour is called "l'hora del vermut" (the vermouth hour).

We are catching on in the UK & with its popularity rising bartenders are trying & testing it in newer & more innovative ways all the time. We at The Devonshire have over twenty vermouths & will guide you through trying it neat, on ice, with soda or tonic or in a cocktail.

What exactly is this delicious drink though? We're sure this isn't an alien topic of conversation to a lot of you & there are differing views on the subject. One states that a vermouth must contain one of three varieties of wormwood (Artemisia absinthium, Artemisia pontica, or Artemisia maritima) for example.

The simplest definition we can give is that vermouth is produced by the blending of wines, herbs & spices & many of the botanicals you will find in most London Dry gins - hence why we love it!

With all this in mind, have a look through our selection, & let us know what you fancy. As with our gin selection we have chosen not to recommend a particular way to drink it as taste is so personal but if you would like a bit of advice then please ask, we'll help you create the best serve for your tastes.

VERMOUTH LIST
