

Truv Employment Verification Services Launch June 15

Open Mortgage Wholesale is excited to announce the upcoming launch of Truv Written Verification of Employment (VOE) and Verbal Verification of Employment (VVOE) services, available beginning Monday, June 15, 2026.

This update strengthens our verification capabilities and makes the employment verification process more efficient throughout the loan process.

What's New

Starting Monday, brokers will be able to order a Truv Written Verification of Employment through the Additional Loan Services tab in TPO Connect after the loan has been submitted to Open Mortgage Wholesale.

What Is Truv?

Truv is a secure, permission-based verification platform that verifies a borrower's income and employment through direct connections to real data sources.

Through Truv, borrowers may connect directly to their payroll provider, allowing verification results to be delivered in real time when available.

This launch is designed to help create a smoother process, reduce verification friction, and support a more streamlined loan experience for brokers and borrowers.
