

WATER RECOVERY

CONTENT

1. SAMI is opposed to compulsory acquisition of water
2. Water must come from willing sellers or alternate methods of water savings. SAMI believe that the principle of willing buyer or seller to be maintained
3. Government must acknowledge that buying water affects economic value of the water market and socio economic conditions of local communities

Adoption of policy

Formally adopted by SAMI on 6/6/06

Review

SAMI will review this policy bi-annually.
