

PROTECTION OF IRRIGATION WATER LICENCE

CONTENT

1. SAMI wants confirmation that when South Australia receives full entitlement of 1850GL that 1 share equals 1KL.
2. SA carryover should be treated equally with carryover in other states. SA carryover should have priority over environmental water and not be the first to spill. Irrigators have the right to use all of their water on their licence.

Adoption of policy

Formally adopted by SAMI on 11/4/06

Review

SAMI will review this policy bi-annually.
