

MICHIGAN VACCINE FREEDOM POLITICAL ACTION COMMITTEE

2018 MICHIGAN FEDERAL & STATE CANDIDATE QUESTIONNAIRE

Please circle the answer which best indicates your position for each question. Your answers are reported to constituents in your district. Thank you for your participation.

1. Michigan is one of seventeen states that allows a philosophical exemption for vaccinations for children entering daycare and school. Thousands of parents have expressed how grateful they are to live in a state where parents have the freedom to make the decision whether or not, or how, to vaccinate their children. They know how precious health care rights are, and want to know who in the legislature they can count on to preserve their rights.

I support an individual's/parent's right to make vaccine decisions for themselves and their children.

Yes No Undecided

2. Michigan law provides a clear, simple process for citizens to exercise their choice to exempt from vaccine mandates. However, the State Department of Health & Human Services has exceeded state law by issuing a mandate requiring parents to meet personally with employees of county health departments before granted a vaccine waiver for their child to attend school or daycare. These in-person meetings are not required by state law, but rather imposed by administrative rules. Our members find these mandated meetings to be a substantial burden, and many department employees to be demeaning of their vaccine decisions. Parents are forced to provide private health information about their child, without their consent, which violates privacy rights they have through federal privacy laws (FERPA). Michigan Vaccine Freedom PAC supports legislation that protects the privacy of children's student health records and prohibits unelected government agencies from exceeding state statutes with regard to vaccine exemptions.

a) I support requiring legislative approval before unelected state or local agencies can add additional burdens on parents or individuals seeking to exercise their vaccine waiver rights.

Yes No Undecided

b) I would sponsor or cosponsor legislation prohibiting unelected state or local agencies from imposing any additional burdens on individuals or parents seeking to exercise their vaccine waiver rights.

Yes No Undecided

3. Some employers and educational institutions discriminate against citizens who exercise their vaccine exemption rights by denying services and/or employment for something as simple as declining a flu shot. Michigan Vaccine Freedom PAC supports legislation that would prohibit any institution that receives taxpayer funding from engaging in such discrimination.

a) I support legislation that prohibits tax-funded institutions from discriminating against individuals who exercise vaccine choice.

Yes No Undecided

b) I would sponsor or cosponsor legislation that prohibits tax-funded institutions from discriminating against individuals who exercise vaccine choice.

Yes No Undecided

Candidate Name/Signature: _____ District #: _____ Date: _____

Campaign Manager: _____ Campaign Email: _____

Would you like MVF PAC to refer constituent volunteers to your campaign? Yes No
