

## Syllabus: Math 086 Pre-Algebra

| Course Information |  |
| :---: | :---: |
| Course Prefix/Number: Math 086 <br> Semester: Fall 2016 <br> Class Days/Times: Tuesday - Thrusday 11:15 AM - 12:30 PM | Credit Hours: 3 <br> Course Title: Pre-Algebra <br> Room: A-3 |

| Instructor Information: | Phone/Voice Mail: (520) 383-0101 |
| :--- | :--- |
| Name: Jorge Guarin | E-mail: jguarin@tocc.edu |
|  | Office location: Main Campus, Building A |
|  | Office hours: To Be Determined |

## Course Description:

Transition from arithmetic to algebra. It includes signed numbers, commutative, associative, and distributive laws, order or operations, algebraic expressions, polynomials, fractions, and linear equations. Also includes percents, ratio and proportion, graphing, perimeter, area, volume, and optional topics.

## Course Objectives: <br> During this course students will

1. Define absolute value and graph real numbers on the number line.
2. Perform operations on signed numbers and apply to practical problems.
3. Apply commutative, associative, distributive properties and order of operations to arithmetic and algebraic expressions.
4. Simplify and evaluate algebraic expressions.
5. Perform addition, subtraction, and multiplication on polynomials.
6. Simplify and perform operations on arithmetic and algebraic functions.
7. Solve linear equations including equations with decimal and fractional coefficients.
8. Translate percent problems into algebraic equations and solve.
9. Solve ratio and proportion problems.
10. Solve application problems using perimeter, area, and volume.
11. Plot points and graph linear equations on the Cartesian coordinate system.

## Student Learning Outcomes (SLOs) : <br> After completion of the course students will be able to

- Perform basic operations using whole numbers, fractions, decimals, ratios and proportions.
- Apply the five-step process for solving a wide variety of situational (word) problems.
- Employ technology to set up and solve real world situations.

## Texts and Materials:

Required Text: Pre-Algebra, 5th Edition, Lial, Hestwood, 2014, ISBN 13: 978-0-321-84502-3.
Textbooks are available at the Main Bookstore. Checking out and returning an iPad is a

## Evaluation and Grading \& Assignments:

## Attendance:

The attendance policy for this class is simple. You are all adults who have in some form paid for this class. If you do not wish to come to any session, you do not have to attend. However, you are still responsible for completing work on time. If you are late for class, enter quietly and sit down. You will not be allowed to make up any quiz you miss because of tardiness. In case of a valid emergency, contact the instructor using the information given on the first page. After filling out an absence form, the instructor will decide whether or not the work missed can be made up.

Academic Integrity: Violations of scholastic ethics are considered serious offenses by Tohono O'odham Community College, the Mathematics Department, and by your instructor. Students may consult the TOCC Student Handbook sections on student code of conduct, on scholastic ethics and on the grade appeal procedure.
[a] All homework can be done independently or with other students. The purpose of homework is to develop critical thinking skills and also to develop specific skills related to teaching mathematics by repeated practice of these skills. Without this practice most students find it impossible to perform well in this class. No collaboration is tolerated during exams in-class exams.
[b] Students are expected to abide by the Student Code of Conduct and the Scholastic Code of Conduct found in the Tohono O'odham Community College Student Handbook. Copies are available at the main student bookstore.

## Course Feedback:

All materials submitted will be graded and returned the next class period after they are submitted.

## Homework Policy:

Homework will be assigned each class period (See Homework) and it is due at the next class period after all questions have been solved. The solutions to selected problems in the text are given in the back of the textbook. Similar problems in the book are step-by-step solved on the web site www//interactmath.com. Late homework will not be accepted unless the student has made an arrangement with the instructor before it is to be turned in.

## Withdrawals:

Please be sure to withdraw yourself by October 26, 2016 if you do not expect to complete the class, otherwise you may receive an " F " grade.

## Workload:

Students are expected to spend an average of 18 hours per week attending class sessions, doing assignments and preparing for exams. The standard Carnegie Unit of college credit assigns one credit hour for each 15 hours of class time and assumes that students spend two hours working outside the classroom for each hour of classroom instruction. For a three-credit semester course, this translates to an average of 12 hours spent outside of class weekly for 8 weeks.

## Grading System/Policies:

| Your final grade will be calculated as follows: | Grading Scale |  |
| :---: | :---: | :---: |
| 6 homework assignments 200 points |  |  |
| 6 quizzes 200 points | $\mathrm{A}=$ | 1000-900 points |
| 6 tests 300 points | $B=$ | 899-800 points |
| 1 project 100 points | $C=$ | 799-700 points |
| 1 final exam 200 points | D = | 699-600 points |
| Total possible $\quad 1,000$ points | $F=$ | less than 600 points |

## Incomplete (I) grade:

To receive an " I " grade, you must have finished at least $3 / 4$ of the course requirements and specifically request the grade. Please call before the last week of class to be sure that there is sufficient time to consider your request. An incomplete grade generally implies that a student has shown sufficient initiative to complete the course on his or her own. You will receive a copy of the standard "l" form filed with the grade. This form details specifically what must be done to complete the course. A student has one year to complete the required work, after which the grade automatically reverts to an "F."

## Make-up Assignments:

No make-up assignments will be given and no late assignments will be accepted unless the student has made arrangements with the instructor.

Extra Credit Opportunities: Do not ask for extra credit opportunities until you have completed all of the required assignments to date. The instructor will occasionally give extra credit homework, quiz, and exam questions that test critical thinking skills.

Final Grades: Students will receive a grade transcript from the college mailed to the address given with registration materials at the end of the semester when all grades have been recorded.

SPECIAL NOTE TO STUDENT: For privacy and security reasons, instructors are advised NOT to give grades over the telephone.

## Course Outline:

I. Signed Numbers
A. Number Line
B. Absolute Value
C. English Statements to Symbols
D. Operations on Integers
E. Practical Applications
II. Commutative, Associative, and Distributive Laws and Order of Operations
A. Apply to Numeric Expressions
B. Apply to Algebraic Expressions
III. Algebraic Expressions
A. Simplify

1. Distributive Property
2. Combine Like Terms
B. Evaluate
IV. Polynomials
A. Terminology
B. Add and Subtract
C. Multiply
V. Fractions
A. Arithmetic Operations
B. Algebraic Fractions
VI. Linear Equations
A. Solving Equations With One Operation
B. Solving Equations With Two Operations
C. Solving Equations With Decimals
D. Solving Equations With Fractions
E. Applications
VII.Percents
A. Translate Into Algebraic Equations
B. Solve
C. Applications
VIII. Ratio and Proportion
A. Notation and Interpretation
B. Applications
IX. Graphing
A. Cartesian Coordinate System
B. Plot Points
C. Graph a Linear Equation by Plotting Points
X. Perimeter, Area, and Volume
A. Calculate Perimeter and Area of Rectangles, Circles, Parallelograms, Trapezoids, Triangles
B. Calculate Volume of Rectangular Solids, Cylinders, Spheres and Cones
C. Applications
XI. Optional Topics
A. Common Factors
B. Measurements

DISCLAIMER: This syllabus is designed to evolve and change throughout the semester based on class progress and interests. You will be notified of any changes as they occur.

## Homework

| Hw \# | Quiz | Chapter | Section | Page | Numbers | Score |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## Acknowledgment of Receipt of Syllabus

Please read, sign and return the following acknowledgment to me in class, or return to me at the following address:

Jorge Guarin
Tohono O'odham Community College
P.O. Box 3129

Sells, AZ 85634
$\square \quad$ I have received my MAT 086 syllabus (including course objectives, policies, requirements and schedule) and have read and understood all the enclosed materials
$\square \quad$ I have no objection to receiving an occasional call from the instructor at the number given with my registration materials.
$\square$ I prefer that the instructor not call or contact me by phone anytime during the semester.
My reason(s) for taking this course:
$\qquad$
$\qquad$

My background in this area includes:
$\qquad$
$\qquad$
$\qquad$
$\square I$ would like to be contacted by the instructor regarding the following concerns:
$\qquad$
$\qquad$
$\qquad$
$\qquad$
$\qquad$
