First-Time Entering Student – *For the purposes of this report*, any student who is full- or part-time certificate- or degree-seeking, enrolled for the very first time at your institution. They may have no prior college experience, have some college experience or a credential from another institution, or have transferred in from another TCU or a mainstream institution. But this is their very first time at your institution, (AIHEC AIMS User's Manual, pg. 11, July 2017).

****Graduation Rate** – Needed for figuring graduation rate (150%) – FTE of all graduates for AY 2015-16 and FTE of students entering in AY 2012-13 for 2-year institutions or AY 2009-10 for 4-year institutions (all terms included)

Formula: **Headcount of all graduates for AY 2015-16 / headcount of students entering in AY 2012-13 or AY 2009-10 = Graduation Rate**, (AIHEC AIMS User's Manual, pg. 11, July 2017).

****Retention rate** – Needed for figuring retention – All full-time credential-seeking (diploma, certificate, degree, other) students who were enrolled in fall 2015; those who graduated during AY 2014-15 those who were excluded during AY 2014-15; and those who returned in fall 2016.

Formula: **((Fall 2016 returnees* + Graduated) / (Fall 2015 – Exclusions)) X 100 = Institutional Retention**, (AIHEC AIMS User's Manual, pg. 12, July 2017).
