# Policy Failures

**Motive** – Financial incentives place children as a financial prize to be fought over which fuels custody battles and child abuse.

**Means** – Entirely subjective criteria of Best Interest of the Child provides the legal framework for parents to abuse the children and one another.

**Method** – Custody evaluations without boundaries or accountability are the primary weapon used to promote parental alienation and child abuse.

**Money - Control - Hatred**

## Policy Solutions

**Child Support** – alternative expense share model shares TRUE child expenses and removes financial incentives for custody litigation.

**Best Interest of the Child** – include Rebuttable Presumption as an objective factor all subjective factors to be measured against.

**CFI/PRES** – Investigate specific issues versus broadly evaluate, report investigation findings without custody recommendations.

**Child Abuse Mitigated - Court Dockets Slashed**
