

## what is cope ?

The Continuous Patient Education (CoPE) project provides funding for the translation and development of patient education materials, brochures and other resources related to HIV/AIDS and co-infections.

## How does it work?

The CoPE grantee, a community organisation, coordinates the development of the materials. Once finalized, the resource is printed and distributed through different channels. They are also made available at the EATG Training Academy Website [www.eatgtrainingacademy.com/cope](http://www.eatgtrainingacademy.com/cope)

## How to apply?

There are 1-3 rounds of calls for CoPE every year. The information is posted at the EATG website [www.eatg.org](http://www.eatg.org) and the EATG Training Academy Website [www.eatgtrainingacademy.com/application-form](http://www.eatgtrainingacademy.com/application-form)
