**September 26th - October 1st, 2016**

National Adult Education and Family Literacy week is an initiative that aims to raise public awareness about adult education and family literacy. The goal is to provide more resources and access to the 36 million individuals in the U.S. who need education or literacy help. Agencies all around the country use this as a time to advocate for adult education and family literacy to policy makers, the media, and their own communities.
