Rime Magic is an approach to decoding that allows learners to build a solid foundation in phonics in a very short time.

Use easy and fun techniques, based on onset-rime. Learners experience instant success, immediately boosting their self-confidence as readers. Whether in a classroom setting or a one-on-one tutoring situation, you will see significant results in a short period of time. Tutors working one-on-one with learners have a special advantage. Rime Magic instruction will be tailored to the exact needs of your learner!

In this Workshop, you will learn the 7 steps to Magic Rimes!
