

# CTP-C PLATE CLEANER

## Plate Cleaner, Conditioner & Scratch Remover

CTP-C Plate Cleaner is a plate cleaner / desensitizer / scratch remover, able to perform well on a wide variety of unbaked and baked plates without causing image degradation. Contains a blend of desensitizers, wetting agents and non image film formers, all to ensure removal of scratches, summing / toning, while raising the water receptivity of the plate background.

- Will not cause image damage like the heavily alkaline plate cleaners
- Conditions non image area to be water receptive
- Apply with trigger sprayer or use by hand
- Removes scratches, scum / toning
- Tested on most known CTP plates(results available)

### Direction For Use:

#### Trigger Sprayer:

Sprayer to fit your needs spraying onto form rollers or plate.

#### By Hand:

Pour a liberal amount onto a clean sponge, shop towel or cotton wipe. Wipe over area to be treated using a side-to-side motion. To remove scratches, rub into scratch while making sure all ink has been removed.

### Specifications:

Property	Value
VOC content lb. / gallon	1.8
