

# MOLD STOP

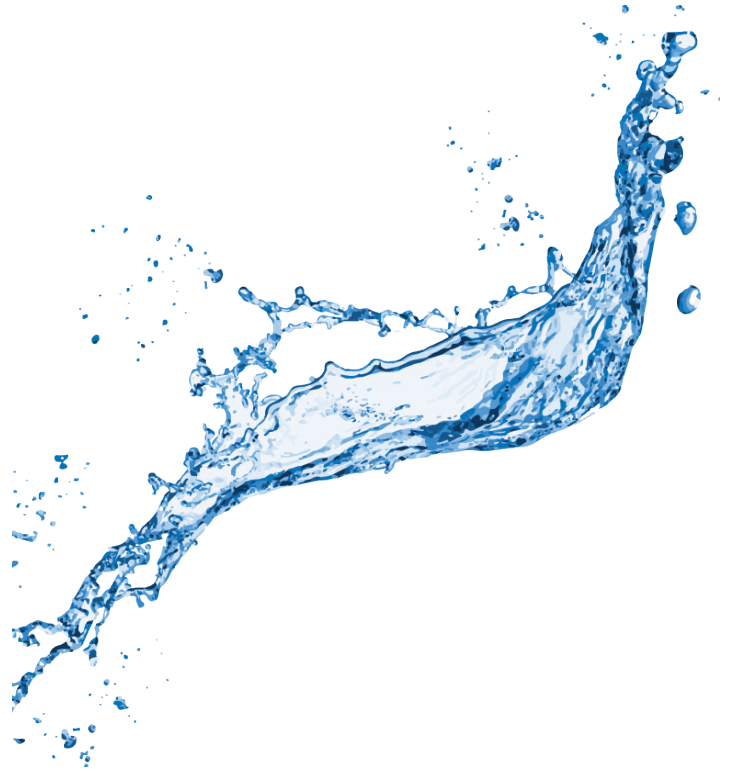

## Mold & Fungus Eliminator

Mold Stop contains biocides & special ingredients targeted for eliminating and controlling the growth of mold and fungus in fountain solution tanks. Mold or fungus left untreated will not disappear, but continue to grow. Foul odors, shortened fountain solution life and poor printing results will be the result if left untreated.

- Inhibits & eliminates mold and fungus growth to provide more stable fountain solution performance
- Eliminates foul odors
- Low dosage required
- Not required to drain fountain solution to treat tanks

### Direction For Use:

Add 1/4 oz. per gallon of water directly to the contaminated fountain solution / water tanks. Typically, it is not necessary to drain all water from the water holding tanks. For proper treatment, we recommend application every 15 days until growth is permanently eliminated.

### Specifications:

VOC content lb. / gallon	0.53
VOC content grams / liter	63
Flashpoint	None
Color	Blue
CA. Compliant	Yes

### Available In:

Product Code	Unit	Case Qty.
10020C	1 Quart (0.946 ltr)	6
