

ENDURA WASH

Manual - Blanket & Roller Wash

Endura Wash is a ready to use, manual blanket & roller wash. Endura Wash can be used as a daily, all-purpose lithographic press wash. Endura Wash can be used manually for color change over and removal of ink, paper and contaminants that accumulate within the roller train. Endura Wash is formulated to work effortlessly in removing ink and calcium/paper build up on lithographic printing blankets. Endura Wash provides a medium drying speed.

Note: Endura Wash is not for use in auto wash up units.

- CA compliant – 98 grams per liter VOC
- Low odor – ready to use blend
- Manual wash for rollers & blankets
- Medium drying speed
- Cuts & removes inks, calcium, paper lint
- Use with water or Allied CA Rinse

Direction For Use:

Rollers:

Shake Well Prior to Use

Manually apply Endura Wash to the roller train and allow wash to oscillate & emulsify the ink for a few minutes prior to engaging wash up blade. The use of Allied CA Rinse will aid in the complete removal of any build up or remaining residue.

Blankets:

Apply Endura Wash onto your blankets as you would with other typical blanket washes.
