

# ALLIED X-TREME KLEEN

## Water Miscible Blanket & Roller Wash

Allied X-Treme Kleen is a water miscible blanket and roller wash that can accommodate an equal volume of water without sacrificing performance. The resulting emulsion optimizes the performance of the solvent, dissolving ink quickly and removing dried gum and paper contaminants from blankets and rollers. The incorporation of water into Allied X-Treme Kleen allows for a reduction in VOCs and cost to the printer.

- Low odor
- Medium/fast evaporation rate
- Easy to use; emulsion forms quickly
- Leaves no greasy residue
- Less solvent coming in contact with roller and blanket compounds
- Addition of water enhances performance by removing both oil & water

### Direction For Use:

Use as is or add up to 50% water and shake well to blend the water and Allied X-Treme Kleen.

#### As a Roller Wash:

Pour a small amount on the top roller of the ink train. Allow Allied X-Treme Kleen to work in, adding more if necessary. When the ink appears to be emulsified, engage cleanup blade or wash up device. Finish by flushing with more Allied X-Treme Kleen until all the

ink is removed. Follow with a generous water wash to remove all detergents. If water is added, Allied X-Treme Kleen / water emulsion will separate over time. A quick shake of the wash up bottle will reform the emulsion.

#### As a Blanket Wash:

Pour a liberal amount onto a clean shop towel or rag. Wipe over the entire blanket until clean using a side-to-side motion.

### Specifications:

VOC content lb. / gallon	6.8
VOC content grams / liter	810.3
Flashpoint	107°F
Color	Colorless to Pale Yellow
CA. Compliant	No

### Available In:

Product Code	Unit	Case Qty.
10038G	55 Gallons (208 ltr)	Each
100384G	55 Gallons (208 ltr)	4-7
100388G	55 Gallons (208 ltr)	8+
