

GREEN FOUNT 8068 TE

Meets FOGRA Specs for Sheet-fed Applications

(Heidelberg – Manroland - Koenig & Bauer)

Our Green Fount 8068 TE is a premium sheet-fed fount to be used with all high-speed sheet-fed presses. Green Fount 8068 TE has been designed to run with all soft to medium hard waters. It contains powerful wetting agents to ensure good water / ink balance during the press run. New high tech wetting agents have allowed us to formulate Green Fount 8068 TE without using any of the normal solvents used in fountain solutions. Green Fount 8068 TE offers excellent protection for all CtP plates, where other fountain solutions fail. The product is very easy for the press operators to use, and requires a minimum of training.

- Excellent wetting on plates ensuring quick start-ups
- Good protection of all non image areas on plates
- Minimal dot gain
- Efficient protection for CtP plates
- Great dot fidelity with bright and dense colors
- Compatible with all Kodak plates
- Fogra, Blue Angel, and Nordic Swan compliant
- Easy installation and operating conditions
- Low paper waste on start-ups and stops / starts
- Calcium control, less build-up on blankets and rollers
- Low dosage required, depending on equipment type
- Dampening solution remaining clean in tank

Direction For Use:

Recommended dosage range 2 oz. to 4.5 oz. per gallon.
Conductivity per ounce is 360 micromhos.

Specifications:

VOC content lb. / gallon	0.7
VOC content grams / liter	80
Flashpoint	None
Color	Colorless
CA. Compliant	Yes

Fogra, Blue Angel and Nordic Swan Compliant

No.30632

Recommended dosage range is 1.5% to 3.5%.
Conductivity per % is 460 micromhos.

Available In:

Product Code	Unit	Case Qty.
10655D	1 Gallon (3.785 ltr)	4
10655E	5 Gallons (18.9 ltr)	Each
10655G	55 Gallons (208 ltr)	Each
10655T	275 Gallons (1040 ltr)	Each

VOC COMPLIANT Air Quality Management District Compliant
