

HYDRO WASH

Super Concentrated Water Miscible Blanket & Roller Wash

The nature of the resulting emulsion is such that oil and water based contaminants are pulled from the rollers and blankets at a faster / deeper rate than with standard press wash. Removes ink, paper coating, paper glaze, dried gum, friction glaze, oil and water based surfactants. Lowers V.O.Cs. Dries like a standard press wash. Less solvent comes in contact with the roller and blanket compounds. With 60% water added, each gallon of Hydro Wash produces 2.5gal of wash.

- Easy to use – emulsion is stable and forms quickly
- Addition of water enhances performance by removing both oil soluble and water-soluble material
- Cost effective and a multi-purpose wash
- Cleans deeply and removes both oil and water soluble materials
- Evaporates as any standard blanket and roller wash
- Low Odor

Direction For Use:

Designed to be mixed with 25% to 60% water. Start with a 50/50 mix adjusting water percentage as needed. Shake well before use.

As a Roller Wash:

Squirt on top roller of the ink train. Allow the wash to work in, adding more if necessary. When all the ink appears to be emulsified, engage clean up blade or wash-up device. Finish wash-up by flushing with more cleaner until all the ink is removed. Follow with a water wash.

As a Blanket Wash:

Pour a liberal amount onto a clean shop towel or rag. Wipe over the entire blanket until clean using a side to side motion.

Specifications:

VOC content lb. / gallon	6.7
VOC content grams / liter	802
Flashpoint	107°F
Color	Light Tan
CA. Compliant	No

Available In:

Product Code	Unit	Case Qty.
10235E	5 Gallons (18.9 ltr)	1-35
1023536E	5 Gallons (18.9 ltr)	36+
10235G	55 Gallons (208 ltr)	Each
102354G	55 Gallons (208 ltr)	4-7
102358G	55 Gallons (208 ltr)	8+
