

UV-E WASH

*Energy Curable Roller Wash

While UV-E Wash is a premium, UV ink wash formulated to effectively clean lithographic rollers while maintaining a low voc rating. UV-E Wash is suitable for use as a manual or in automatic wash up units for both UV and some conventional inks.

- Excellent for auto or manual wash ups
- Low odor & minimal residue
- If necessary, a final vinegar or water rinse will remove oily build up
- Deep cleans what other washes leave behind
- Will not cause plate blinding or sensitivity
- Minimizes paper waste during start ups
- VOC rating is less than 100 grams per liter
- *Not harmful to rollers, blankets or seals
- Minimal environmental impact & press operator safe
- Complies with Air Quality Management District Rule 1171

Direction For Use:

Autowash:

Follow same procedures as currently using for typical auto washing.

Manual Roller Wash:

Squirt a minimal amount of wash over inking rollers adding more as needed. Engage wash up attachment. Follow up with a warm water rinse. As necessary, utilize Allied's CA Rinse to thoroughly remove any remaining residues or contaminants throughout the roller train.

* Note: Not compatible with EPDM rollers

Specifications:

VOC content lb. / gallon	0.82
VOC content grams / liter	98
Flashpoint	63°F
Color	Colorless
