

DYNAMIGHT CTP

Plate Cleaner & Preserver

Dynamight has been chemical resistance tested with most know major ctp plates, showing no image degradation. (test available upon request). Dynamight cleans plates, removes sensitive areas and is used for plate storage. It leaves a water receptive film on the non-image area ensuring fast start-up, each time it is used.

- Mild on plates
- Short-term storage
- Desensitizes the plate
- Use with most known CTP Plates
- Conditions the plate leaving the non-image area water receptive
- Compatible with conventional & UV inks

Direction For Use:

To Remove Scratches, Scum or Oxidation:
Pour Dynamight onto a clean sponge or shop towel. Wipe over the total plate surface, paying particular attention to the affected area. Wet wash with water and run.
