We only get one chance to prepare our students for a future none of us can possibly predict. What are we going to do with that one chance?

The world has entered an era of the most profound and challenging change in human history. In addition, studies have identified what is referred to as a “skills gap”—a difference in how students are prepared for the workforce and the skills and character employers are seeking to match the demands of today’s global economy.

What if our children could be better prepared to meet the future challenges of our ever-changing world?

“As you teach these principles to young students, you will be creating a generation of leaders, one child at a time.”

Dr. Stephen R. Covey

The Leader in Me is a schoolwide leadership-development process for both students and staff members—of which *The 7 Habits of Highly Effective People* is a foundational piece. It integrates timeless leadership principles into school culture, driving transformational results.

The Leader in Me is designed to be integrated into a school’s core curriculum and everyday language, so that it isn’t “one more thing” teachers and administrators have to do. It becomes part of the culture, gaining momentum and producing improved results year after year, benefiting schools and students in the following ways:

- Helps students to gain the skills and self-confidence to succeed as leaders in the 21st century.
- Improves academic achievement.
- Decreases discipline referrals.
- Raises levels of accountability and engagement among both parents and staff.

Create a common language, built on proven principle-based leadership skills found in Dr. Stephen R. Covey’s best-selling book, *The 7 Habits of Highly Effective People*.
