Merck STEM Program for Women and Youth

Merck KGaA

Submitted as part of Access Accelerated
The information in this report has been submitted by the company concerned to the Access Observatory as part of its commitment to Access Accelerated. The information will be updated regularly. For more information about the Access Observatory go to www.accessobservatory.org

The information contained in this report is in the public domain and should be cited as: Merck KGaA, Merck STEM Program for Women and Youth (2018), Access Observatory Boston, US 2018 (online) available from www.accessobservatory.org
Program Description
Program Overview

1. **Program Name**
   Merck STEM Program for Women and Youth

2. **Diseases program aims to address**
   - NCD care (general)
   - Non-NCDs (communicable)

3. **Beneficiary population**
   - Youth (5-18yrs)
   - Women

4. **Countries**
   - Angola
   - Benin
   - Botswana
   - Burkina Faso
   - Burundi
   - Cameroon
   - Congo
   - Egypt
   - Ethiopia
   - Gabon
   - Ghana
   - Kenya
   - Liberia
   - Malawi
   - Morocco
   - Mozambique
   - Namibia
   - Niger
   - Nigeria
   - Rwanda
   - Senegal
   - Sierra Leone
   - South Africa
   - Tanzania
   - Uganda
   - Zambia
   - Zimbabwe

5. **Program start date**
   January 1, 2015

6. **Anticipated program completion date**
   Completion date not specified

7. **Contact person**
   Yasmine Rouai (yasmine.rouai@emdserono.com)

8. **Program summary**
   The “Merck STEM Program for Women and Youth” aims to empower women and youth in the fields of STEM (Science, Technology, Engineering and Mathematics. Through its annual platform, the UNESCO-Merck Africa Research Summit (MARS), the Merck STEM program prepares the road for young and female African researchers to drive Africa’s development as an international hub for research. In addition, the Merck Foundation targets to empower over 7,000 girls and 60 women researchers across Africa in 2017 through various initiatives, including providing training opportunities, setting up computer libraries in schools, and appointing the UNESCO-MARS research award winners as ambassadors for the Merck STEM Program.
Program Strategies & Activities

9 Strategies and activities

Strategy 1: Community Awareness and Linkage to Care

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Planning</td>
<td>The annual summit provides an opportunity for researchers to share their work. Workshops that mentor and foster communication among researchers are also facilitated at the summit.</td>
</tr>
<tr>
<td>Communication</td>
<td>Women and youth empowerment in the fields of science and technology, educational systems support, scientific research and healthcare education.</td>
</tr>
<tr>
<td>Technology</td>
<td>The STEM program provides computer donations to libraries to facilitate learning.</td>
</tr>
<tr>
<td>Training</td>
<td>The STEM program provides training opportunities in research to women and youth.</td>
</tr>
</tbody>
</table>

10 Strategy by country

[No response provided].
Local Context, Equity & Sustainability

15 Local health needs addressed by program
As of 2016, there are about 60 million primary school-age children (6-11 years old) missing from classrooms, half of who live in sub-Saharan Africa. In sub-Saharan Africa, rate of out-of-school children is 23% for girls and 18% for boys and girls who make it to school can expect as little as 5 years of schooling in total. Furthermore, two-thirds of the global illiterate population are young women and about 25 million illiterate young women live in sub-Saharan Africa.¹

We believe that empowering women through education is an important factor in promoting economic well-being of Africans. Many literatures have shown that there is a strong link between educating women and girls and positive outcomes for economic empowerment, social mobility, and maternal health. It is also believed that women unemployment in a nation’s workforce was a waste of valuable human capital that has a negative impact on economic prosperity and national development. The girls who attend school and learn, receive skills to improve their future livelihoods and in turn champion education for their families, communities and nation.²

16 Social inequity addressed
Our program aims to empower women and youth in Africa in the fields of Science, Technology, Engineering and Mathematics (STEM) and reduce the gender inequality in access to education in Africa. Our program by providing girls an equitable opportunity to learn, improves women’s empowerment and welfare of families, consistent with the United Nations slogan “Equality for Women is Progress for All.”²

17 Local policies, practices, and laws considered during program design
The activities of the program such as providing research training, and setting up computer libraries in schools are done in accordance with local policies. Additionally, we partner with African Union, the World Health Organization, and national governments in hosting the UNESCO-Merck Africa Research Summit (MARS).²

18 How program meets or exceeds local standards
[No response provided].

19 Program provides health technologies (medical devices, medicines, and vaccines)
No.

20 Health technologies are part of local standard treatment guidelines
Not applicable.

21 Health technologies are covered by local health insurance schemes
Not applicable.

22 Program provides medicines listed on the National Essential Medicines List
No.

23 Sustainability plan
[No response provided].
Additional Program Information

24 Additional program information
[No response provided].

25 Access Accelerated Initiative participant
Yes.

26 International Federation of Pharmaceutical Manufacturers & Associations (IFPMA) membership
Yes.

Program Indicators

Not yet available for this program
Appendix

Program Description

PROGRAM OVERVIEW

1. Program Name

2. Diseases program aims to address:
   Please identify the disease(s) that your program aims to address (select all that apply).

3. Beneficiary population
   Please identify the beneficiary population of this program (select all that apply).

4. Countries
   Please select all countries that this program is being implemented in (select all that apply).

5. Program Start Date

6. Anticipated Program Completion Date

7. Contact person
   On the public profile for this program, if you would like to display a contact person for this program, please list the name and email address here (i.e. someone from the public could email with questions about this program profile and data).

8. Program summary
   Please provide a brief summary of your program including program objectives (e.g., the intended purposes and expected results of the program; if a pilot program, please note this). Please provide a URL, if available. Please limit replies to 750 words.

PROGRAM STRATEGIES & ACTIVITIES

9. Strategies and activities
   Based on the BUSPH Taxonomy of Strategies, which strategy or strategies apply to your program (please select all that apply)?

10. Strategy by country
    If you have registered one program for multiple countries, this question allows you to provide a bit more specificity about each country (e.g. some countries have different strategies, diseases, partners, etc.). Please complete these tables as applicable. For each portion you have you selected from above (program strategies), please identify which country/countries these apply.

COMPANIES, PARTNERS AND STAKEHOLDERS

11. Company roles
    Please identify all pharmaceutical companies, including yours, who are collaborating on this program:

    What role does each company play in the implementation of your program?

12. Funding and implementing partners
    Please identify all funding and implementing partners who are supporting the implementation of this program (Implementing partners is defined as either an associate government or non-government entity or agency that supplements the works of a larger organization or agency by helping to carry out institutional arrangements in line with the larger organization’s goals and objectives.)

    a. What role does each partner play in the implementation of your program? Please give background on the organization and describe the nature of the relationship between the organization and your company. Describe the local team’s responsibilities for the program, with reference to the program strategies and activities. (response required for each partner selected).
b. For each partner, please categorize them as either a Public Sector, Private Sector, or Voluntary Sector partner. (Public Sector is defined as government; Private Sector is defined as a business unit established, owned, and operated by private individuals for profit, instead of by or for any government or its agencies. Generation and return of profit to its owners or shareholders is emphasized; Voluntary Sector is defined as Organizations whose purpose is to benefit and enrich society, often without profit as a motive and with little or no government intervention. Unlike the private sector where the generation and return of profit to its owners is emphasized, money raised or earned by an organization in the voluntary sector is usually invested back into the community or the organization itself (ex. Charities, foundations, advocacy groups etc.))

c. Please provide the URL to the partner organizations’ webpages

13 Funding and implementing partners by country
If you have registered one program for multiple countries, this question allows you to provide a bit more specificity about each country (e.g., some countries have different strategies, diseases, partners, etc.). Please complete these tables as applicable. For each portion you have you selected from above (funding and implementing partners), please identify which country/countries these apply.

14 Stakeholders
Please describe how you have engaged with any of these local stakeholders in the planning and/or implementation of this program. (Stakeholders defined as individuals or entities who are involved in or affected by the execution or outcome of a project and may have influence and authority to dictate whether a project is a success or not (ex. Ministry of Health, NGO, Faith-based organization, etc.). Select all that apply.

Government, please explain
Non-Government Organization (NGO), please explain
Faith-based organization, please explain
Commercial sector, please explain
Local hospitals/health facilities, please explain
Local universities, please explain
Other, please explain

LOCAL CONTEXT, EQUITY & SUSTAINABILITY

15 Local health needs addressed by program
Please describe how your program is responsive to local health needs and challenges (e.g., how you decided and worked together with local partners to determine that this program was appropriate for this context)?

16 Social inequity addressed
Does your program aim to address social inequity in any way (if yes, please explain). (Inequity is defined as lack of fairness or justice. Sometime ‘social disparities,’ ‘structural barriers’ and ‘oppression and discrimination’ are used to describe the same phenomenon. In social sciences and public health social inequities refer to the systematic lack of fairness or justice related to gender, ethnicity, geographical location and religion. These unequal social relations and structures of power operate to produce experiences of inequitable health outcomes, treatment and access to care. Health and social programs are often designed with the aim to address the lack of fairness and adjust for these systematic failures of systems or policies.*)

*Reference: The definition was adapted from Ingram R et al. Social Inequities and Mental Health: A Scoping Review. Vancouver: Study for Gender Inequities and Mental Health, 2013.

17 Local policies, practices, and laws considered during program design
How have local policies, practices, and laws (e.g., infrastructure development regulations, education requirements, etc.) been taken into consideration when designing the program?

18 How program meets or exceeds local standards
Is there anything else that you would like to report on how your program meets or exceeds local standards?

19 Program provides health technologies
Does your program include health technologies (health technologies include medical devices, medicines, and vaccines developed to solve a health problem and improve quality of lives)? (Yes/No)
Program Indicators

INDICATOR DESCRIPTION

20 List of indicator data to be reported into Access Observatory database
For this program, activities, please select all inputs and impacts for which you plan to collect and report data into this database.

21 Data source
For this indicator, please select the data source(s) you will rely on.

22 Frequency of reporting
Indicate the frequency with which data for this indicator can be submitted to the Observatory.

23 Data collection
a. Responsible party: For this indicator, please indicate the party/parties responsible for data collection.
b. Data collection — Description: Please briefly describe the data source and collection procedure in detail.
c. Data collection — Frequency: For this indicator, please indicate the frequency of data collection.

24 Data processing
a. Responsible party: Please indicate all parties that conduct any processing of this data.
b. Data processing — Description: Please briefly describe all processing procedures the data go through. Be explicit in describing the procedures, who enacts them, and the frequency of processing.
c. Data processing — Frequency: What is the frequency with which this data is processed?

25 Data validation
Description: Describe the process (if any) your company uses to validate the quality of the data sent from the local team.

26 Challenges in data collection and steps to address challenges
Please indicate any challenges that you have in collecting data for this indicator and what you are doing to address those challenges.

ADDITIONAL PROGRAM INFORMATION

20 Health technology(ies) are part of local standard treatment guidelines
Are the health technology(ies) which are part of your program part of local standard treatment guidelines? (Yes/No) If not, what was the local need for these technologies?

21 Health technologies are covered by local health insurance schemes
Does your program include health technologies that are covered by local health insurance schemes? (Yes/No) If not, what are the local needs for these technologies?

22 Program provides medicines listed on the National Essential Medicines List
Does your program include medicines that are listed on the National Essential Medicines List? (Yes/No) If not, what was the local need for these technologies?

23 Sustainability plan
If applicable, please describe how you have planned for sustainability of the implementation of your program (ex. Creating a transition plan from your company to the local government during the development of the program).

24 Additional program information
Is there any additional information that you would like to add about your program that has not been collected in other sections of the form?

25 Access Accelerated Initiative participant
Is this program part of the Access Accelerated Initiative? (Yes/No)

26 International Federation of Pharmaceutical Manufacturers & Associations (IFPMA) membership
Is your company a member of the International Federation of Pharmaceutical Manufacturers & Associations (IFPMA)? (Yes/No)
