

Natural Look

You Were Created by a Creative God

Create a self-portrait out of items found in nature.

Supplies:

- Paper plate
- Glue (liquid white glue)
- Scissors
- Crayons/pencil crayons
- Bucket (for carrying all your treasures)

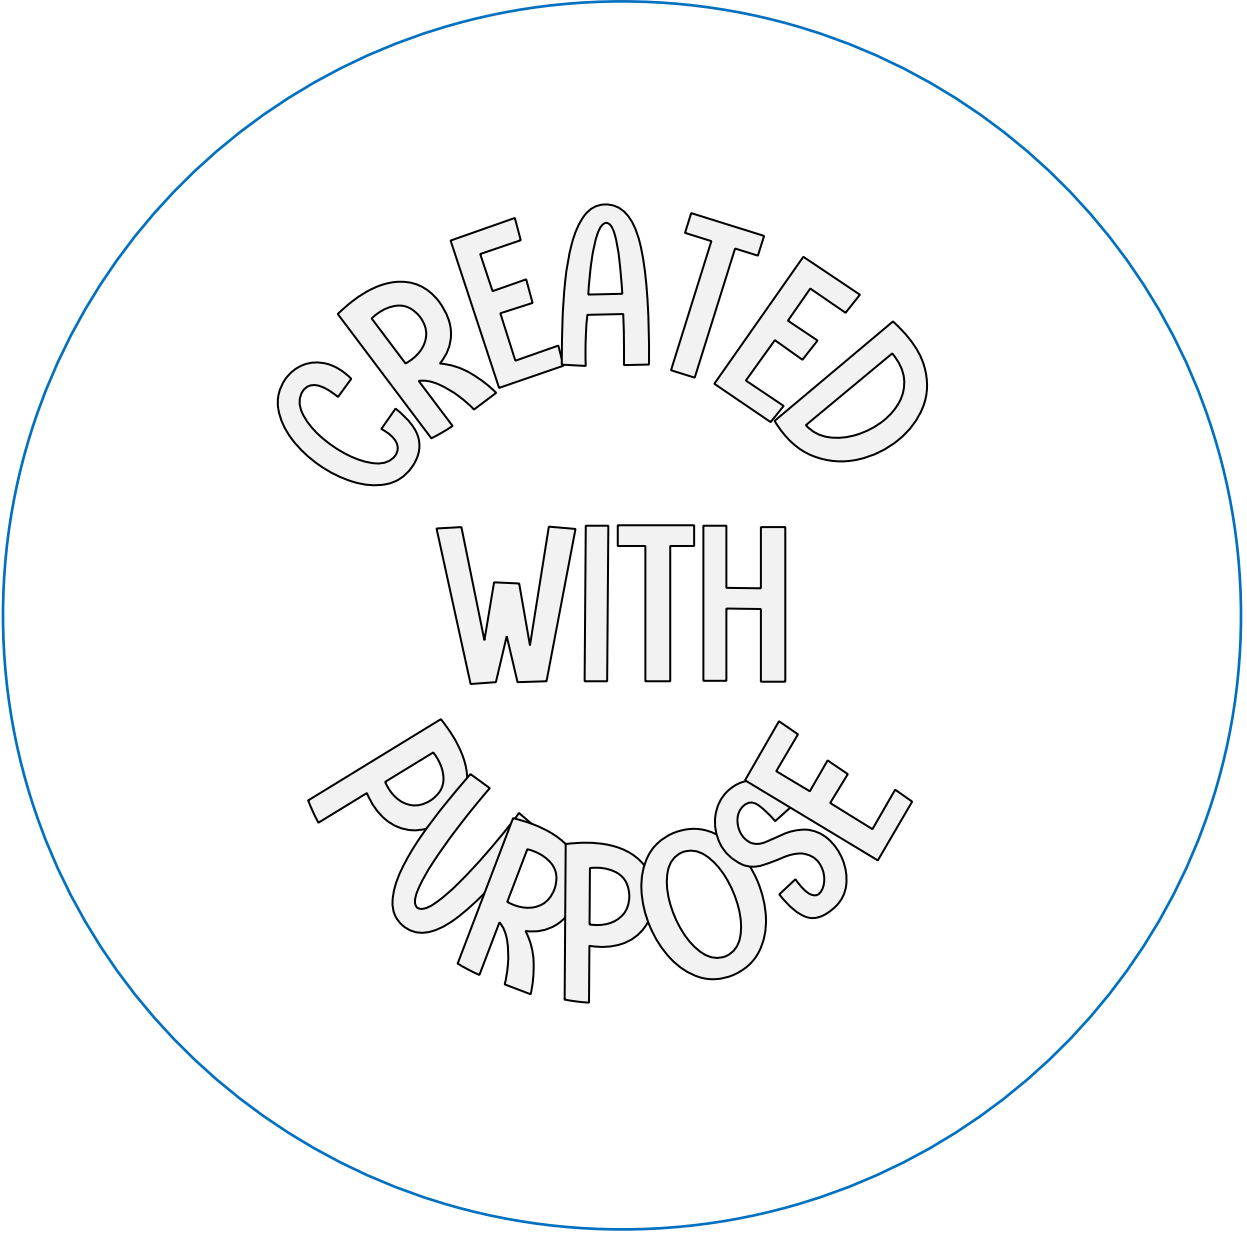

Cut and colour the 'Created with Purpose' design below. Glue this onto the back of the paper plate. (Just print page 3 of this document).

Before going outside to hunt for items, discuss what facial features you'd like to include; eyes, nose, ears, eyebrows, hair, mouth, etc. Then take your time exploring God's creation for the right items to use. Once your bucket is filled with options, let your little one create by using the paper plate and a lot of glue!

(Note: this activity can be done in any season, you might just need to get a little more creative in the snow!)
