# Our Vision

At this very moment, our world is moving in a fast pace toward a brighter future. It is the future without any geographical obstacles, especially in payment. People also call this as Fin-tech which is financial technology. It all happens incredibly fast due to the development of Blockchain technology.

Indeed, we now can stay in Japan and pay someone in the U.S to exchange for goods without any administration or interference. Moreover, we can even create our own token to exchange for fiat money or goods, thanks to the smart contract feature of Blockchain technology. The world is presently facilitated with such an advanced technology.

Hence, our wish is to contribute to the evolution of Blockchain technology. We believe HB Wallet will be the most chosen wallet when users think about Ethereum in the near future.

**Welcome to the future of advanced payment!**

ENTERPRISE  
ETHEREUM  
ALLIANCE

Your true Ethereum Wallet!

# Our Mission

When it comes to cryptocurrency, the first complication is to store, manage and protect our funds. Therefore, HB Wallet was founded to facilitate the advancement of Blockchain technology by helping users to monitor and preserve their funds.

HB Wallet is committed to deliver a reliable and convenient system that specialized to store Ethereum as well as Tokens for users.

# General Problems

It takes time to check Ether balance.

It takes a lot of steps to securely transfer Ethers or Tokens.

It is hard to monitor our funds across different devices.

It is difficult to find and participate in an airdrop.

It is tough to store and track custom smart contract.

It is confusing to check real-time value of Cryptocurrency.

It is complex to store private key and passphrase.

It is convoluted to remember our accounts and contact.

# HB Solutions

Monitor your Ether balance anytime, anywhere, on any device with HB Wallet.

Transfer your Ethers and Tokens via HB Wallet securely with a few simple steps.

Manage your funds across multiple devices with HB Wallet on Desktop and Mobile.

Receive notifications and participate in airdrop events directly on HB Wallet.

Store and track custom smart contract with HB Wallet easily.

Check real-time value of any cryptocurrency on HB Wallet in a few seconds.

Check your private key and passphrase on your HB Wallet anytime you want.

Store all addresses with HB directory assistance.

# HB Wallet on Mobile

## Description

- Release date: July 17th, 2017
- Operating system: iOS & Android
- Download size: 32.5 MB
- Category: Finance

# HB Wallet on Mobile

## Features

- Contain Ether, Token on ERC20, ERC233 and Custom Smart Contract
- Show notifications and join any airdrops directly
- Provide multiple Ethereum addresses
- Capable of sending and receiving contained digital assets via QR Code
- Support Shape Shift to exchange contained digital assets to other cryptocurrencies
