

Raccoon Collage

Culture / Zoology: Exotic Animals.

Aim: Strengthening pincer grip by tearing paper and gluing.

Vocabulary: raccoon

Instructions: Cut out some strips of paper from a magazine or newspaper. Invite your child to tear the paper into small pieces. Then, glue the teared paper to the inside of the raccoon while staying within the lines. Use darker pieces of paper for the eyes. After the glue dries, children can glue googly eyes, and one pompom for the nose, to create a face!
