Building Stronger TB and TB/HIV Community Partnerships for Advocacy in Asia and the Pacific
23-25 January, 2018

23-25 January 2018, Bangkok, Thailand
Background

Ending the TB and TB/HIV epidemics by 2030, as stated by United Nations Sustainable Development Goals (SDGs), requires a paradigm shift for the TB and HIV responses. If governments are to effectively respond to TB and TB/HIV, this shift will need people-centered, human rights-based and gender sensitive and coordinated approaches to the diseases. The 2018 UN High Level Meeting on TB (UMHLM) offers a unique opportunity to identify and offer a global response to challenges and promote strategic planning and coordinated advocacy towards ending TB.

Supporting an engaged, empowered and coordinated TB/HIV communities is a guiding principle for the work of the Stop TB Partnership (STBP) and the International Federation of the Red Cross and Red Crescent Societies (IFRC). Looking forward over the next 12 months, effective community advocacy amplified through strategic partnerships will be critical in key regions, including the Asia-Pacific. With this in mind, STBP and IFRC have combined with national Red Cross and Red Crescent Societies, the Activist Coalition on TB Asia-Pacific (ACT! Asia-Pacific) to design and deliver a workshop featuring key country and regional partners.

Objectives

To increase political TB and TB/HIV advocacy capacity of the workshop participants through:

1. Identify and develop strategic advocacy priorities and messaging for the region, with a particular focus on resource mobilization and the UN High Level Meeting on TB.
2. Strengthen participants’ political advocacy engagement skills
3. Increase participants’ awareness on TB treatment literacy and key TB CRG tools; i.e., Legal Environment Assessment, Gender Assessment Tool, Key Populations Data Framework.
4. Foster strategic partnerships and facilitate coordination between the IFRC and its National Red Cross and Red Crescent Societies, Stop TB Partnership, National Red Cross and Red Crescent Societies, ACT Asia-Pacific and other regional/national TB/HIV activists, to collectively advocate for a sustainable, community-centered and human-rights based responses to TB and HIV in Asia and the Pacific.

Expected outputs

1. Regional and national partnership means of working between IFRC/RCRC National Societies, Stop TB Partnership, ACT Asia-Pacific developed and adopted.
2. Knowledge and skills on communication and advocacy on TB/HIV responses increased.
3. Regional strategic advocacy priorities identified.
4. Knowledge and skills on implementation of CRG tools increased.
