

# Aditaur™ *[əd itôr]*

## Privacy audits with a simple click

### Detect programmatic advertising and audit the information used to drive it

#### How Aditaur works

Aditaur™ is a powerful tool that simplifies the process of conducting privacy audits on websites and ad-delivery platforms.

- Just log in to the Auditor web portal and indicate the web domains that you would like to audit
- Aditaur will launch an automated barrage of tests for checking whether programmatic advertising systems, working with these domains, comply with data protection laws
- When the tests are completed you will receive an email in your mailbox with a link to the detailed report of the audit.

#### What Aditaur offers

- **Regulatory compliance monitoring**  
Detect websites that display targeted advertisements and violate data protection laws regarding sensitive personal data use.
- **Collection of evidence for privacy forensics**  
Identify the intermediaries involved in serving an ad that has used sensitive personal data.
- **Ranking of websites and delivery platforms**  
Identify the good, the bad and the ugly within the AdTech ecosystem when it comes to handling personal data.

#### Who benefits from Aditaur?

- Brands advertising on the Internet can use Aditaur to verify that they do not put their brand name at risk by offending users or breaking data protection laws
- Websites participating in programmatic advertising to which they have no direct control can similarly use Aditaur to proactively detect controversial targeting
- Media Auditors and Ad Delivery Platforms can use Aditaur for self-regulation purposes
- Data Protection Authorities and Regulators can use Aditaur to proactively monitor the ecosystem and collect evidence for detailed investigations.

#### Insightful Analytics

Address tactical & strategic questions:

- Is there significant evidence of ad targeting based on sensitive, personal user attributes protected by GDPR?
- Which are the companies involved in the delivery of such ads?
- How effective is Do-Not-Track and cookie blockers in stopping undesirable tracking?

#### Highlights

- Intuitive graphical interface
- Cloud-based presentation portal and storage
- Customizable dashboards and data export options.
