

I would like to thank the committee, club and exhibitors for giving me the opportunity of going over our lovely breed. The committee did an excellent job over the course of the day and should be commended for their efforts. Thank you also to my steward Jim for his help on the day and wasn't the trophy table excellent.

Overall I felt that the dogs were of better quality than the bitches and it is great to see the brindles making a resurgence. There were 2 things that did stand out for me and I feel should be addressed by breeders as custodians of the breed. Firstly mouths – I found quite a few inverted/converging canines and there were 2 exhibits that the tops of the canines were cut off! Secondly feet – there were quite a number that were flat and some splaying.

Thank you once again everyone I thoroughly enjoyed myself.
