## **18th of October 2014**

I would like to thank the committee for the invitation to judge their show. I had a fabulous time from the moment I stepped of the plane until it was time to return home. Thank you to Jo and Kerry for taking me around Adelaide it was a wonderful experience, also for Jo Rasche for taking me to the winelands for a few, beautiful part of the world.

Well back to the dogs, on an average there was a lot of Breed Type Fit for Function. I was really impressed with the standard of the placed dogs, they were fit and would be able to complete all over the world. On the negative side, attention should be given to feet, I had a lot of flat feet and some short toes, this surely should be addressed. Movement was average, maybe because the exhibitor's like to run their dogs, Stafford's should not run in the ring.

Thank you to all the exhibitors for coming great distances to support and well done to the committee for running a very successful show, also a big thanks to all the marshals that made it an enjoyable day to judge.

### **Baby Puppy Dog:**
