Information for 2019-2020 SOPHOMORES, JUNIORS & SENIORS

At the beginning of the school year, the following credits are needed to be classified accordingly:

Sophomore.....5 units

Junior.....11 units

Senior.....17 units

Information concerning courses which will be offered to Denham Springs High students for the 2019-2020 school year can be found in this student handbook. Students should be aware that they are scheduling courses for the entire year. All students must attend school for eight (8) class periods unless they are in Cooperative Office Education (COE) or CTE internship program.

DSHS ONLINE SCHEDULING 2019-2020

Students will be entering their course requests using the PowerSchool program. Instructions for entering online course requests are as follows:

- 1. Go to powerschool.lpsb.org (Do NOT type in www).
- 2. Enter your username
- 3. Enter your password
- 4. Select Class Registration on the left side of the screen.
- 5. Follow the online instructions to enroll in courses for each category by subject area. To enter online course requests, click on the yellow pencil and the courses offered for that subject area will appear. In some subject areas, more than one course can be selected in that course area if needed.
- 6. Students must choose enough courses to attend 8 class periods for both the fall & spring semester. **WARNING: If 8 credits are not scheduled, the** system will give an error message.
- 7. Students will also choose at least 4 alternate courses. The system will automatically use alternate courses if a conflict exists in the student's 1st choice of selected courses. WARNING: Failure to choose at least 4 alternates will also cause the system to give an error message. Alternate courses should be DIFFERENT courses from the student's 1st choice of courses already selected.
- 8. Click "submit" and your schedule request will be displayed for viewing. Alternate courses are listed in alphabetical order. They are not listed in order of preference. Students can make corrections until online registration is closed. Course changes will not be accepted after course registration has been closed. Once the student has completed online registration, print a paper copy of the final course requests entered in PowerSchool. The printed copy must be signed/dated by both the student and the legal guardian and returned with the other items below.

STUDENTS & PARENTS: It is your responsibility to select appropriate courses to fulfill graduation, TOPS & college entry requirements. Carnegie credit cannot be awarded for the same course twice. A copy of your current transcript has been provided for your review, prior to scheduling courses. (1) Look over the courses you have already taken and the minimum requirements for graduation. (2) Consider whether you are trying to qualify for the TOPS Scholarship (3) After completing the online schedule, print it, both the student and parent should sign & date, and turn it in with your IGP. Signatures shall represent acknowledgement of the receipt of TOPS and graduation requirements. SCHEDULE CHANGES WILL NOT BE ACCEPTED ONCE ONLINE REGISTRATION HAS BEEN CLOSED.

ONLINE REGISTRATION WILL BE AVAILABLE UNTIL 7 A.M. ON MONDAY, MARCH 25.
Failure to select courses by Monday, March 25 will result in a schedule made for you by the counselor.

2019-2020 JUNIORS & SENIORS Current 10th & 11th Graders

STUDENTS WILL ALSO BE REQUIRED TO COMPLETE THE FOLLOWING:

- 1. Individual Graduation Plan: Every student is required to maintain and sign a current IGP by the Louisiana Department of Education. All students will complete an IGP. ALL IGP's must be signed by both the student & the legal guardian. Changes in Diploma Type <u>WILL ONLY OCCUR</u> at scheduling time along with a parent conference with a Career Coach or advisor.
- Students will return the following to their current 1st hour teacher by: Monday, March 25.
 - Printed Copy of PowerSchool Course Requests Signed by Student & Guardian.
 - Individual Graduation Plan (IGP) Signed by Student & Parent

Online schedule requests will not be accepted without the signed copy of courses requested & a completed IGP!

Questions regarding scheduling should be emailed to the appropriate counselor:

Secretary: melissa.burr@lpsb.org
Current 10th Graders: tristian.owens @lpsb.org
Current 11th Graders: shayne.sanders@lpsb.org

2019-2020 SOPHOMORES Current 9th Graders enrolled at DSFH:

Students will return the following to their current English teacher by: Monday, March 25.

Printed Copy of PowerSchool Course Requests – Signed by Student & Parent

Questions regarding scheduling should be emailed to: Secretary: melissa.burr@lpsb.org Current 9th Graders: shannon.lee@lpsb.org

LOUISIANA HIGH SCHOOL GRADUATION REQUIREMENTS:

For students who are completing the Louisiana high school curriculum, the minimum course requirements for graduation shall be the following:

GRADUATING CLASS OF 2018 & BEYOND

TOPS UNIVERSITY CURRICULUM

English (4 units): English I, II, III, IV

Math (4 units): Algebra I, Geometry, Algebra II, and the remaining units shall come from the following: Advanced Math-Pre-calculus, Calculus, Advanced Math-Functions & Statistics or AP Computer Science A.

Science (4 units): Biology, Chemistry, and 2 units from the following: Physical Science, Physics I, Biology II or AP Biology II or Anatomy, Chemistry II, Environmental Science or AP Environmental Science, or Agriscience II.

Social Studies (4 units): 1 unit of Civics or AP American Government, US History or AP US History, and 2 units from the following: World History or AP World History, World Geography or AP Human Geography, AP Psychology, or AP Macroeconomics. **Health (1/2 unit)**

Physical Education or ROTC: (1 ½ units minimum)

Foreign Language (2 units): 2 units in the same foreign language

Arts (1 unit): Fine Arts Survey, Art, Choir, Band, Theatre, Theatre Design & Technology, AP Music Theory, Digital Storytelling or Basic Drafting.

Electives (3 units)
Total: 24 units

JUMP START TOPS TECH (CAREER DIPLOMA) CURRICULUM

English (4 units): English I, II, III, English IV or Business English **Math (4units):** Algebra I or Algebra I Part I and Algebra I Part II, and 3 units from the following: Geometry, Math Essentials, Financial Math, Algebra II, Advanced Math Functions and Statistics, Advanced Math Precalculus.

Science (2 units): 1 unit of Biology I and one unit from the following: Chemistry I, Environmental Science, Physical Science, Agriscience I and II.

Social Studies (2 units): 1 unit of US History and 1 unit of Civics.

Health: 1/2 unit

PE or ROTC: (1 1/2 units minimum)

Jump Start: 9 units of courses in the student's selected career

pathway.

Total: 23 units

Credentials in the Jump Start Pathway are also required to graduate under the Jump Start Diploma. These are listed in each pathway. Refer to pages 4-6 for pathway options.

NOTE: Students who follow this diploma path will not be admitted directly after high school into 4-year universities in Louisiana.

To receive the TOPS Scholarship, you must follow the TOPS University curriculum listed above AND meet the following requirements:

| OPPORTUNITY AWARD | PERFORMANCE AWARD | HONORS AWARD |
|-------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| 2.50 GPA | 3.00 GPA - Class of 2020 | 3.00 GPA - Class of 2020 |
| ACT = 20+ | 3.25 GPA - Graduates of 2021 and after ACT = 23+ | 3.5 GPA – Graduates of 2021 and after $ACT = 27+$ |
| Tops Award \$ Amount is subject to LA Legislature approval each year | Tops Award \$ Amount is subject to LA Legislature approval each year. Student also receives an additional \$400/year stipend | Tops Award \$ Amount is subject to LA Legislature approval each year. Student also receives an additional \$800/year stipend |

Current sophomore students who are considering changing from the TOPS University Diploma to the Jump Start TOPS Tech (Career Diploma) should fill out the information on the last page of this packet and turn it in to their 1st hour teacher or the guidance office by March 25 in lieu of scheduling online.

DSHS JUMP START DIPLOMA GRADUATION PATHWAY - OPTION 1

Students must take at least one of the course listed in bold/underlined along with either Pathway Specific Courses or Universal Courses to make up a minimum of 9 Carnegie credits/units in addition to earning the credential listed for that particular pathway.

PATHWAY SPECIFIC COURSES

Agriscience II*

❖ Agriscience I* Agriscience III ❖ Basic Study Skills I-IV Ag Leadership Business Computer Apps (BCA) Auto Technician I – 3 credits ❖ Business Law (1/2 credit) Auto Technician II – 3 credits **AGRICULTURE** Career Course (1 Required - no Basic Technical Drafting limit) including: Journeys, •CTE Internship – 2 credits Basic Career Readiness, Adv **TECH** Chemistry* Career Readiness) Coop Office Education – 3 credits Customer Service Environmental Science* Entrepreneurship (Automotive, Carpentry, Electrical NCCER Carpentry I First Responder &/or Welding) NCCER Carpentry II Intro to Bus Computer Apps NCCER Core Keyboarding/Keyboarding Apps NOTE: Automotive is only offered at NCCER Electrical I Law Studies LPLTC in Walker, LA. Student must NCCER Electrical II Personal Finance (1/2 credit) provide their own transportation. NCCER Welding Technology I Principles of Marketing NCCER Welding Technology II ROTC III & ROTC IV

Theatre Design & Technology

Must choose at least 1 of the following from

the list above: Auto, Carpentry, Electrical or

CREDENTIALS (Required to Graduate)

BASIC:

Must obtain at least one of the following credentials:

❖ NCCER Carpentry – Level 1

INTEGRATED PATHWAY

- ❖ NCCER Electrical Level 1
- **❖** NCCER Welding Level 1
- **❖** Automobile Service Excellence (ASE) Student Certification which includes obtaining one or two of the following:
 - Automatic Transmission and Transaxle
 - Automobile Service Technology
 - Brakes
 - Electrical/Electronic Systems
 - Engine Performance
 - Engine Repair
 - Heat and Air Conditioning
 - Maintenance and Light Repair
 - Manual Drivetrain and Axles
 - Steering and Supervision

ADVANCED:

Must obtain one of the following:

- ❖NCCER Carpentry Level 2
- **❖NCCER Electrical** Level 2
- **❖NCCER Welding Level 2**
- **❖** Automobile Service Excellence (ASE) Student Certification which includes obtaining three or more of the following:
 - Automatic Transmission and Transaxle

❖Speech I & Speech II

*Courses counting toward an academic

requirement cannot count toward the 9

Carnegie credits for a graduation pathway

UNIVERSAL COURSES

Accounting

- Automobile Service Technology
- Brakes
- Electrical/Electronic Systems
- Engine Performance
- Engine Repair
- Heat and Air Conditioning
- Maintenance and Light Repair
- Manual Drivetrain and Axles
- Steering and Supervision

REGIONAL: Must obtain Regional Micro-Enterprise Credential (Entre.) or Welder's Helper + 2 of the following:

First Aid (PEI)

MOS Excel MOS Word **NCCER Core** (Agriscience I)

Welding.

Customer Service (Entrepreneurship) WorkKeys Silver, Gold or **Platinum**

(IBCA & BCA)

MOS PowerPoint

DSHS JUMP START DIPLOMA GRADUATION PATHWAY – OPTION 2

Students must take the course listed in bold/underlined along with either Pathway Specific Courses or Universal Courses to make up a minimum of 9 Carnegie credits/units in addition to earning the credential listed for that particular pathway.

- ❖ WorkKeys Silver, Gold or Platinum

Course Directory

| In choosing your courses, keep in mind that you need to strive for the following: |
|-----------------------------------------------------------------------------------------------------------------|
| Courses that will help prepare you for a particular career |
| Courses that will prepare you for college or other advanced training |
| Courses required for graduation and TOPS, if applicable |
| Read the scheduling information carefully and discuss your schedule with your parents. It is important that you |
| make selections that meet state requirements for graduation and TOPS, and that are helpful in meeting your |

Read the scheduling information carefully and discuss your schedule with your parents. It is important that you make selections that meet state requirements for graduation and TOPS, and that are helpful in meeting your individual needs. You are not allowed to change teachers or courses, so you should give serious consideration to your selections.

***Schedule changes will not be made after you input into PowerSchool.

*** School counselors are available for consultation, <u>BUT THE FINAL RESPONSIBILITY FOR MEETING</u> GRADUATION AND TOPS REQUIREMENTS RESTS WITH THE STUDENTS AND PARENTS.

<u>DSHS Honors Requirements</u>: Students must have at least a 3.0 cumulative GPA and have earned a grade of B or higher in the subject area for which they are requesting an Honors course. If you wish to take an Honors course, schedule the course at scheduling time. Should there be a scheduling conflict, a change in course will occur.

<u>DSHS Gifted Requirements</u>: Students enrolled in Gifted English III, Gifted English IV and/or Gifted Calculus are required to take the AP Exam. The fee is \$10 for each course and must be paid to Mrs. Clement by May 10, 2019.

<u>DSHS CLEP Course Requirements</u>: Some of our courses will include the requirement that students take the CLEP exam. Students requesting a course in which CLEP is required will be required to take the CLEP exam. Students scoring a 50 or above on the CLEP exam may be eligible to receive college credit. It is the student's responsibility to ensure that college credit will be accepted by the particular university they are planning to attend.*

<u>DSHS AP Course Requirements:</u> In order to enroll in AP courses, you must meet the following requirements: Cumulative GPA of 3.0 or higher AND a B or higher in the subject area in which you are scheduling an AP course, and also attended AP Night which was held on February 21, 2019. If you want to be competitive for scholarships, it is advised to enroll in an AP course. AP Course grades are calculated on a 5-point weighted GPA scale. In addition, each class will be utilizing a 10-point grading scale.* Note: Students enrolled in Gifted English III, Gifted English IV and/or Gifted Calculus are required to take the AP Exam.

Students requesting AP courses will be required to complete the AP exam upon completion of the course. The cost of the AP exam is \$10 for each course and must be paid in advance by May 10, 2019 to Mrs. Clement. Students who have not paid the exam fee will be moved to a regular course at that time. Students scoring a 3 or above on the AP exam may be eligible to receive college credit. It is the student's responsibility to ensure that college credit will be accepted by the particular university they are planning to attend.*

Southeastern Louisiana University Dual Enrollment: We will offer Advanced Math Pre-Calc CMAT through Southeastern. Students enrolled in these courses must have a GPA of 2.5 or better and a COMPOSITE score of 19, PLUS a MATH sub-score of 19, PLUS ENGLISH sub-score of 18 on either the ACT or Pre-ACT. The cost for Advanced Math Pre-Calc CMAT is \$15. Payment will be due in the fall. Prices are subject to change. When registering for the ACT, send your scores to DSHS to expedite receipt of the official scores. Upon successful completion of this course, the student will earn a semester of college algebra and a semester of college trig resulting in 6 hours of college credit.

AGRICULTURE

Agriscience I: This course provides students with basic knowledge of agriculture and the scientific applications in agriculture. It includes units in animal, soil, and plant science, agricultural mechanics, food science technology and agricultural leadership. Grades: 10-12/ Credit: 1 unit

Agriscience II: This course continues the coursework begun in Agriscience I. Grades: 10-12/ Credit: 1 unit

Agriscience III: This advanced course in Agriscience is based upon local needs in agriculture and the workforce. Grades: 11-12/Credit: 1 unit

NCCER Electrical I & II: These courses prepare students for electrical careers through exposure to electrical theory and safety, conduit bending, electrical test equipment, motor theory and application, fasteners and anchors, alternating current theory, and the National Electric Code. Topics include operation of hand and power tools and equipment, safety and first aid, blue prints, basic rigging, and communication skills. Math and science skills are incorporated into class activities. Students work toward industry certification through NCCER. Equipment provided. Grades: 10-12/ Credit: 1 unit

NCCER Welding I & II: These courses provide an introduction to hand/power tools and construction math related to welding. Topics include welding safety, base metal preparation, weld quality, oxy-fuel cutting techniques and practices, basic rigging techniques, employability, and communication skills. Math and science skills are incorporated. Students work toward NCCER industry certification. Equipment is provided. Grades: 10-12/ Credit: 1 unit

ART

Art I - (Drawing): This course is an introductory course in drawing. Students will cover the fundamental skills of drawing techniques and the elements of design. Students will be introduced to a variety of dry drawing mediums and drawing styles. Art history, aesthetics and art criticism will be incorporated throughout the course. Supply fee: \$25. Grades: 10-12/ Credit: 1 unit

<u>Painting:</u> This course is an introductory course in Painting and 2D design. Students will cover the basics and methods of painting techniques. Students will be introduced to famous painters, multiple art styles and the principles of design. Art history, aesthetics and art criticism will be incorporated throughout the course. Supply fee: \$25. **Prerequisite**: Art I Grades: 11-12/ Credit: 1 unit

<u>3D Sculpture & Pottery:</u> This course is an introductory course in 3D Sculpture and Ceramics. Students will cover the basics and methods of hand building: pinch, slab, and coil techniques. Students will be introduced to 3D art making through additive, subtractive and modeling processes of sculptural construction using multiple mediums. Art history, aesthetics and art criticism will be incorporated throughout the course. Supply fee: \$25. **Prerequisite**: Art I Grades: 11-12/ Credit: 1 unit

<u>AP Art History</u>*: The AP Art History course is equivalent to a two-semester introductory college course that explores the nature of art, art making, and responses to art. By investigating specific course content of works of art characterized by diverse artistic traditions from prehistory to the present, the course fosters in-depth, holistic understanding of the history of art from a global perspective. Students become active participants in the global art world, engaging with its forms and content. Students will experience, research, discuss, read, and write about art, artists, art making, responses to, and interpretations of art. No prerequisite required. Instructor approval required. Grade: 10-12 / Credit: 1 unit.

AP Studio Art*: This course includes Drawing, 2D and 3D. Be an informed and critical decision-maker in order to develop a portfolio that is personal to your individual artistic talents and interests, while demonstrating mastery of Drawing or 2-D design principles; explore your creativity and become an independent thinker in your contributions to art and culture; learn to use Elements and Design Principles to organize an image on a picture plane in order to communicate content; demonstrate mastery through any two-dimensional medium or process, such as graphic design, digital imaging, photography, collage, fabric design, weaving, fashion design, fashion illustration, drawing, painting and printmaking; develop technical skills and familiarity with the functions of visual elements in order to create an individual portfolio of work for evaluation at the end of the course. **Instructor approval only.** Grade: 11-12 / 1 unit

BUSINESS & COMPUTER TECHNOLOGY

Accounting: Designed to introduce students to basic accounting theory and procedures along with current applications of computer technology in accounting using QuickBooks. A \$10 lab fee is required. Grades 10-12/ Credit: 1 unit

<u>Business Computer Applications</u>: This course introduces basic to advanced principles associated with information processing including computer concepts, word processing, spreadsheet, and database and presentation software applications. Prerequisite: Intro to BCA. Grades: 10-12/ Credit: 1 unit

<u>Business Law</u>: The Business Law course is designed to provide students with an overview of our legal system, including statutes and regulations that affect businesses, families, and individuals in a variety of ways. Knowledge of business law is particularly useful because all students eventually assume the role of citizen, worker, and consumer in society. Grades: 10-12 / Credit: 1/2 unit.

AP Computer Science A: Computer Science A is equivalent to a first-semester, college-level course in computer science. The course introduces students to computer science with fundamental topics that include problem solving, design strategies and methodologies, organization of data (data structures), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course emphasizes both object-oriented and imperative problem solving and design using Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems. Prerequisite: AP Computer Science Principles or Algebra II or higher or concurrently enrolled in Algebra II. Grades 10-12 / Credit: 1 unit

<u>AP Computer Science Principles*</u>: Computer science is everywhere, from our smartphones and video games to music, medicine, and much more. AP Computer Science Principles (AP CSP) can help you understand how computing and technology influence the world around you. Learn how to creatively address real-world issues while using the same tools and processes that artists, writers, computer scientists, and engineers use to bring ideas to life. Learn the fundamentals of computing, including problem solving, working with data, understanding the Internet, cybersecurity, and programming. **Prerequisite:**Algebra I. Grades: 10-12 / Credit: 1 unit

<u>Cooperative Office Education</u> (COE): This course provides students with part-time office employment combined with classroom instruction in human relations, office etiquette, time management, and computer operations and techniques. Membership in FBLA is required. **Instructor Approval Required Prerequisite**: IBCA and BCA. Grade: 12 / Credit: 3 units

Entrepreneurship: This course introduces students to the rewards and risks of owning and operating a business enterprise. Students will be completing a business and marketing plan and will have the opportunity to earn a Customer Service, Regional Micro-Enterprise, and State Micro-Enterprise credential. Grades: 10-12/Credit: 1 Unit

<u>Introduction to Business Computer Applications:</u> This course introduces students to proper keyboarding techniques, the production of simple business documents, and basic computer application skills using the Microsoft Office Suite. Grades 10-12/ Credit: 1 unit

<u>Personal Finance</u>: Introduces the topic of personal finance, explores the evolution of the American credit industry, and highlights the importance of both knowledge and behavior when it comes to managing money. Emphasizes the importance of saving and explains the three reasons to save: emergencies, large purchases, and wealth building. Explores the purpose and process of writing a budget and the basics of banking, including balancing and reconciling a checking account in an effort to ensure your teen's real-world success by empowering them with Dave Ramsey's proven personal finance principles. Grades: 10-12 / Credit: 1/2 unit.

<u>Principles of Marketing I</u>: This course is a "hands on" experience of a retail environment. The focus is working in the school store, "The Jackets Nest." Students will also complete virtual business retailing (online business marketing simulation). Grades: 10-12/Credit: 1 Unit

<u>Principles of Marketing II:</u> This course is a "hands on" experience of a retail environment. The focus is working in the school store, "The Jackets Nest". Students will explore Marketing topics and take the Principles of Marketing CLEP Exam. Membership in DECA is required. Prerequisite: Principles of Marketing 1. Grades: 11-12/Credit: 1 Unit

DRIVER EDUCATION

<u>Driver Education</u>: This course is designed for the beginning driver. It consists of 30 hours of classroom instruction and 6 hours of practical driving time with a certified instructor. OFFERED DURING SUMMER AND/OR HOLIDAY SESSIONS. **Scheduling for this course is not completed in PowerSchool.** Fee: \$375 (Updated cost has not been released for this year's term) Credit: 1/2 unit

EFFECTIVE STUDY & INTERNSHIP

AP Seminar*: In AP Seminar, students investigate real-world issues from multiple perspectives, gathering and analyzing information from various sources in order to develop credible and valid evidence-based arguments. AP Seminar is a foundational course that engages students in cross-curricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Ultimately, the course aims to equip students with the power to analyze and evaluate information with accuracy and precision in order to craft and communicate evidence-based arguments. Grades: 10-12/ Credit: 1 unit

ACT/College Preparation: This course prepares students for all portions of the ACT and will focus on other college-preparatory skills, such as note-taking, reading speed and comprehension, and study techniques. Students are required to participate in ACT Spring Boot Camp. Grades: 11-12/Credit: 1/2 unit

Advanced Career Readiness: This course investigates the 16 career clusters through classroom discussion, activities, and LA Connect exploration and research to help students make meaningful decisions about their career choices. This is required for a JumpStart Career Pathway. Grades: 10-12/ Credit: 1 unit

<u>CTE Internship:</u> This course provides students with part-time employment combined with career and technical classroom education for opportunities to consider a single potential career or combination of careers. Emphasis will be placed on developing interpersonal skills, work ethics, relevant skills of the workplace, and an understanding of the selected career field of study. Grade 12/ Credit: 2 units

GUIDED STUDY HALL (listed as "Reading Elective A" in PowerSchool): This class is designed to develop a strong foundation for academic success by teaching students to create a study process. The curriculum presented gives students that crucial productivity burst by blending a broad variety of instruction regarding habits of highly effective students such as note-taking, problem-solving techniques, reading and re-reading skills, time management, creating a study environment, designing mind maps, developing annotated bibliographies for research, writing collegiate level research papers, and many more. Time is also allocated each week for students to work in a study hall environment. Students must be registered in two or more AP courses to enroll. This is a full year course. Grades: 11-12 / 1 unit

ENGLISH

English I: Instruction will include an overview of the types of literature and major literary devices and elements. Each of the four major genres will be covered: short story, novel, drama, and poetry. Credit: 1 unit

English II: Students will read and discuss selections from a variety of genres and write developed, coherent paragraphs and compositions. Credit: 1 unit

English II Honors: Students pursue an accelerated course of English II. Emphasis is on independent reading, writing, and research. Credit: 1 unit

AP English III*: (Replaces English III) Strengthen the effectiveness of writing through close reading and frequent practice at applying rhetorical strategies, analyzing information from source texts, and writing arguments; become a critical reader of predominantly nonfiction works, including expository, argumentative, analytical, and personal texts from various authors and time periods; learn about the elements that define effective argument and composition through the critical analysis and interpretation of complex texts; understand the interactions among a writer's purpose, audience, subject, and genre and how each of these contributes to effective writing; enhance your own writing skills and understand better each stage of the writing process as you develop expository, analytical, and argumentative compositions. If the student was enrolled in an On-Level English I and/or II course, he or she must have earned A's for both semesters. If the student was enrolled in an Honors English I and/or II course, he or she must have earned A's and/or B's for both semesters. Grade: 11 / Credit: 1 unit

English III: Students will read and discuss all major genres, with an emphasis on American literature. Composition skills focus on the development of the essay and the process and compilation of a research paper. Credit: 1 unit

<u>AP English IV*:</u> (Replaces English IV) AP English Literature and Composition engages students in the careful reading and critical analysis of imaginative literature. Through the close reading of selected texts, students deepen their understanding of the ways writers use language to provide meaning for their readers. As they read, students consider a work's structure, style and themes, as well as such smaller-scale elements as the use of figurative language, imagery, symbolism and tone. Writing assignments focus on the critical analysis of literature and include expository, analytical and argumentative essays. Writing to evaluate a literary work involves making and explaining judgments about its artistry and exploring its underlying social and cultural values through analysis, interpretation and argument. English III AP pre-requisite preferred, but teacher recommendation can substitute. College credit for freshman English may be earned on the AP test. **Students must have semester grades no lower than a B in all previous English courses.** Grade: 12 / Credit: 1 unit

English IV: The course will provide a survey of British as well as world literature selections and training in advanced composition. Credit: 1 unit

<u>Business English</u>: This course teaches students to practice good habits, explore identity, learn life lessons, practice citizenship, learn to live in a community, and become an adult. Included in the course is a study of the book *The Seven Habits of Effective Teens* by Sean Covey and an exploration of survival in both literature and life. Prerequisite: English I, II, & III. Grade: 12/ Credit: 1 unit

<u>Bible as Literature</u>: The course will consist of reading, discussion, and written analysis of major literary selections from the Old and New Testaments. The Bible will be studied not as a religious document but as a source of ideas and style reflected in various works of world literature. Grades: 10-12 / Credit: ½ unit or 1 unit

Publications I & II: (yearbook staff members) Instructor Approval Required. Grades: 11-12/ Credit: 1 unit

Speech I: This performance-based course enables students to develop speech skills and enhance self-confidence by presenting a variety of speeches and improving listening skills. Grades: 10-12/ Credit: 1 unit

Speech II: The course is designed to further the student's skills acquired in Speech I. It presents a variety of opportunities to learn, create, and perform in a broad range of activities, including broadcasts, commercials, oral interpretations, one-act plays, and a variety of speeches. Grades: 10-12/ Credit: 1 unit

FOREIGN LANGUAGE

Latin I: In this course, students will be introduced to the classical language of the ancient Romans, Latin. Students will learn how to speak and dialogue about the weather, introduce and describe themselves, as well as other related topics. Throughout the course, students will read several novellas, which will help them understand the language through comprehension. In addition to learning the language itself, students will learn about Greek and Roman civilization and culture. This includes topics covering classical mythology, the Caesars, the Roman Republic, gladiator and chariot games, and ancient technology and engineering. Grades: 10-12/ Credit: 1 unit

Latin II: In this course, students will continue to build on the language skills established in Latin I and reinforce these skills by reading novellas and introducing authentic Latin. Students will build their vocabulary and understanding of grammar through reading comprehension and conversation. In addition to learning Latin, students will expand on topics introduced in Latin I, such as classical mythology, the Roman Empire, ancient architecture, and daily life. Grades: 11-12/ Credit: 1 unit

Latin III: In this course, students will further their understanding of Latin by continuing to read, produce, and discuss topics related to the world of the ancient Romans. Students will be expected to have an intermediate reading level that is the result of successfully completing both Latin I and Latin II. While comprehension will continue to be the primary focus for achieving literacy in Latin, the course will also concentrate on rhetorical devices, grammar, and identifying unique elements within Latin literature. Readings will include modern works translated into Latin (e.g. *Harry Potter, The Hobbit*), novellas set within the Roman world, and authentic Latin texts from Caesar, Cicero, Ovid, Horace, et al. Grade: 12 / Credit: 1 unit

Spanish I: This course is a general introduction to the Spanish language and culture with emphasis on correct pronunciation, basic grammar, and culture of Spain and other Spanish-speaking countries is included. Grades: 10-12/ Credit: 1 unit

Spanish II: This course continues the coursework of Spanish I and focuses on more advanced grammar construction, vocabulary and idiomatic expressions. Grades: 10-12/ Credit: 1 unit

Spanish III Honors: This course continues the coursework of Spanish II and focuses on more advanced grammar construction, vocabulary and idiomatic expressions. To enroll in this course, students must have an overall GPA of 3.0, must have received an "A" or "B" in Spanish I & II. All students will be required to purchase an \$8 workbook. Students are required to take a CLEP test at the end of second semester with the possibility of earning college credit. Grades: 10-12 Credit: 1 unit

HEALTH OCCUPATIONS

Medical Assistant I – 2 credits (formerly CNA & Pre-Nursing I): Medical Assistant I is the first of two courses designed to prepare students for jobs in hospitals, nursing homes, and other health care facilities. The student is taught basic entry-level skills and knowledge to provide personal and basic nursing care. Students will take the exam for certification as a CNA. Instruction in CPR and First Aid is included. Students are required to provide their own transportation for the 100-hour clinical part of the course. This course and CNA certification are a prerequisite to Pre-Nursing II which is taught at the LPLTC in Walker. A \$10 lab fee is required. Grades: 11-12/ Credit: 2 units

<u>Medical Assistant I – 1 credit</u>: Same as above except it does not involve clinical hours as part of the course and the students are not CNA certified. Students take the Medical Assistant certification exam in this course. This course may not be used as a prerequisite for the Pre-Nursing II course at the tech center. Grades: 11-12/ Credit: 1 unit

<u>First Responder:</u> This course is designed to improve the quality of emergency medical care rendered to victims of accidents and illness. Students cannot miss more than 10 class periods (excused or unexcused) in order to receive your certification. A \$15 lab fee is required. Grades: 11-12/Credit: 1 unit

Sports Medicine I/II: The course is for students who have a special interest in athletics, and/or who may be interested in pursuing a career in sports medicine, physical therapy, or other health related fields. Grades: 11-12. Credit: ½ unit each.

Sports Medicine III: This course is a continuation of Sports Medicine I and II. Grade: 12. Credit: 1 unit

FAMILY AND CONSUMER SCIENCE

<u>Advanced Food and Nutrition</u>: This second level course addresses more concepts in nutrition and food preparation. Laboratory experiences are included. A \$15 lab fee is required. Prerequisite: Nutrition and Food (Basic). Grades: 11-12/Credit: 1/2 unit.

Baking & Pastry: Fundamental concepts and techniques in basic baking and pastry production. Weight, volume, and measurement practices, proper sanitation procedures, tool and equipment safety and usage will be covered. Production items will include quick and yeast breads, cookies, pies, cakes, icing, and basic pastries. A \$20 lab fee is required. Grades 10-12. Credit: ½ or 1 unit

<u>Pro Start I:</u> Students will be trained for career opportunities in the food service/culinary arts industry. Laboratory experiences are included. A \$15 lab fee is required. Grades: 11-12/Credit: 1 unit

<u>Pro Start II:</u> This course addresses more concepts for career opportunities in the food service/culinary arts industry. Pro Start I is a prerequisite. A \$15 lab fee is required. Grades: 12th Grade Only/Credit: 1 unit

<u>Nutrition and Food:</u> This course provides students with basic nutrition and wellness knowledge and basic food preparation skills. Laboratory experiences are included. A \$15 lab fee is required. Grades: 11-12/ Credit: 1/2 unit

INDUSTRIAL TECHNOLOGY

NCCER Carpentry I: This is an introductory course in the field of woodworking technology. Students will learn the fundamentals of woodworking, use of wood in industry, and the use of hand and power tools. A \$25 lab fee is required. Grades: 10-12/ Credit: 1 unit

NCCER Carpentry II: This course continues the study of woodworking and woodworking processes. Modern power and hand tools are used. A \$25 lab fee is required. Prerequisite: Basic Woodworking or NCCER Carpentry I. Grades: 11-12/ Credit: 1 unit

<u>Basic Technical Drafting:</u> This course is an overview of the basic concepts in the field of technical drafting. Students will study drafting concepts, using traditional tools and instruments, and computerized drafting techniques and drafting software. A \$25 lab fee is required. Grades: 11-12/ Credit: 1 unit

<u>Web Design I & II:</u> This course includes Internet website development, browser software, photo and video management, and web security. It also covers the use and application of digital photography for the Internet. Students will also assist in maintaining the school website. **Instructor approval required.**

MATH

<u>AP Advanced Math – Probabilitly and Statistics*</u>: The purpose of the AP course in statistics is to introduce students to the major concepts and tools for collecting, analyzing and drawing conclusions from data. Students are exposed to four broad conceptual themes: Exploring Data: Describing patterns and departures from patterns, Sampling and Experimentation: Planning and conducting a study, Anticipating Patterns: Exploring random phenomena using probability and simulation, and Statistical Inference: Estimating population parameters and testing hypotheses. **Prerequisites: Student should have completed at least Algebra II with a grade of B or higher for both semesters. College credit for introductory College Statistics may be earned on the AP test.** Grades: 11-12 / Credit: 1 unit

<u>Advanced Math—Functions and Statistics</u> This course covers the concept of functions and their graphs acquired in previous math classes in preparation for college algebra. Also included is a study of one and two variable statistics, their graphs and distributions in preparation for college statistics. Prerequisite: Algebra II. Grades: 11-12/Credit: 1 unit

Adv Math Pre-Calc: DE-CMAT: This course requires a great deal of independent study. Topics include linear, polynomial, rational, exponential, and logarithmic functions, systems of equations, the laws of sine and cosine, the trigonometric functions, graphs, inverse functions, identities and equations, as well as complex numbers, graphs of parametric equations, and graphs in polar coordinates. Students requesting this course will be required to be dually enrolled in SLU's MATH 161-College Algebra & Math and 162-Trigonometry. Upon successful completion of this course, the student will earn a semester of college algebra and a semester of college trig resulting in 6 hours of college credit. Prerequisites: Algebra II, ACT or Pre-ACT composite of 19, math score of 19, & English score of 18 and a GPA of 2.5 or better. This course is an expansion and enrichment of topics covered in Adv. Math at an accelerated pace and higher degree of difficulty. Fee: \$15. Prerequisites: Alg. II or Alg. II Honors with a B average or higher. Grades: 11-12/ Credit: 1 unit

Advanced Math Pre-Calculus: This course includes a semester of college level algebra and of college level trigonometry. Prerequisite: Algebra II. Grades: 11-12/Credit: 1 unit

Advanced Math Pre-Calculus Honors (E): This course includes a semester of college level algebra and college level trigonometry on an honors level. Prerequisite: Algebra II. (Intended for students preparing for AP Calculus in their senior year). Students will also be required to take the College Algebra CLEP Test. Grades: 11-12/Credit: 1 unit

<u>Algebra I:</u> This course includes understanding the use of the language of algebra, solving linear equations and inequalities, problem solving with equations, graphing linear equations, and understanding the integration of algebra within mathematics. Grades: 10-12/ Credit: 1 unit

Algebra II Honors: This course expands the topics of Alg. II, with material covered at an accelerated pace and with a higher degree of difficulty. It is recommended for students who have demonstrated a high level of ability in math courses, and who are interested in taking more advanced courses. Grades: 10-12/Credit: 1 unit

Algebra II: This course will continue the coursework of Algebra I topics, with a more advanced study of quadratic, exponential, and logarithmic functions. Problem solving is emphasized. Students who have exhibited a higher level of ability and motivation may take this course the same year as Geometry. Prerequisite: Algebra I. Grades: 10-12/ Credit: 1 unit

AP Calculus*: Learn problem solving methods that apply across real-world problems involving theorems, definitions, and functions represented in different ways; use technology to explore, experiment, interpret results, and support your conclusions; explore the key concepts, methods, and applications of single-variable calculus including functions, graphs, and limits, derivatives, integrals, and the Fundamental Theorem of Calculus; become familiar with concepts, results, and problems expressed in multiple ways including graphically, numerically, analytically, and verbally; use technology to help solve problems, experiment, interpret results, and support your conclusions. Grade: 12/ Credit: 1 unit

<u>Financial Math</u>: This course focuses on mathematical concepts and applications needed for the design and management of personal and business finances. This course extends students' knowledge of whole numbers, fractions, decimals, and percent, as well as basic statistics and probability, algebra, geometry, and data analysis in the context of relevant real-life problem solving situations. Grades: 11-12/ Credit: 1 unit

<u>Geometry:</u> Topics covered are the basic elements of geometry, including points, lines, planes, basic definitions, proofs, axioms, postulates, and theorems. Students will work with congruency, triangles, circles, polygons, and trigonometry. Prerequisite: Algebra I. Grades: 10-12/ Credit: 1 unit

<u>Math Essentials:</u> The course consists of a review of topics from Algebra I as well as the study of ratios and proportions, probability, basic statistics, topics in geometry, linear functions, quadratic functions, and additional applications in mathematics. Grade: 11-12/ Credit: 1 unit

MUSIC

Band I, II, III, IV: This course includes fundamental and advanced techniques of playing a wind instrument and is limited to band students. Additional fees for travel, festivals, uniforms, and music are required. Grades: 10-12/ Credit: 1 unit

Advanced Percussion: This course is for all band students who will play a percussion instrument with an emphasis placed on teaching fluency in all percussion instruments of the band and orchestra. Performance obligations include participation in all marching band, concert band, and spring concert percussion activities. Fees are required. Grades: 10-12/ Credit: 1 unit

Instrumental Technique: This course is available to students seeking a second elective credit who are already enrolled in one of the band ensembles to qualify. Students will learn advanced techniques and instrumental techniques required on their specific instrument as well as utilize the time for personal practice and musical advancement. The teacher will develop a specific practice routine for each student as well as provide individualized instruction to enhance musical performance. Students in this course will be required to audition for All-State and District Honor Band. Grades: 10-12/Credit: 1 unit

AP Music Theory*: The AP Music Theory course corresponds to one or two semesters of a typical introductory college music theory course that covers topics such as musicianship, theory, musical materials, and procedures. Musicianship skills, including dictation and other listening skills, sight singing, and harmony, are considered an important part of the course. Through the course, students develop the ability to recognize, understand, and describe basic materials and processes of tonal music that are heard or presented in a score. Development of aural skills is a primary objective. Performance is also part of the curriculum through the practice of sight singing. Students understand basic concepts and terminology by listening to and performing a wide variety of music. Notational skills, speed, and fluency with basic materials are also emphasized. Prerequisite: Students must be able to read and write basic musical notation, demonstrate basic performance skills on an instrument or voice, and have completed at least one year of high school band or choir. Grades: 10-12 / Credit: 1 unit

<u>Applied Music (Flags):</u> This course includes the techniques of flag and rifle. Fees required. **Audition and Instructor Approval Required.** Grades: 10-12/ Credit: 1 unit

<u>Beginning Choir:</u> This course includes the fundamental and advanced techniques of vocal music. Class fee: \$30. Additional fees for travel, festivals, uniforms, and music are also required. Grades: 10-12/ Credit: 1 unit

<u>Intermediate Choir:</u> The course continues the curriculum begun in Beginning Chorus. Class fee: \$30. Additional fees for travel, festivals, uniforms, and music are also required. Grades: 10-12/ Credit: 1 unit

PHYSICAL EDUCATION & ROTC

<u>Physical Education I, II, III, IV:</u> A \$1 lab fee is required. Appropriate uniform dress is a plain grey t-shirt and plain purple shorts purchased from the DSHS PE Department or bought from a store. No graphics, writing, logos, etc. may be on either the shirt or shorts. <u>All 10th grade students are prescheduled into a full year of PE II.</u> Grades: 10-12/ Credit: 1/2 per semester

<u>Health</u>: This course is designed to better the social, intellectual, physical, emotional, and nutritional well-being of the student. It covers substance abuse awareness, stress/time management, first aid, and physical fitness. Grades: 10-12/ Credit: 1/2 unit

ROTC I: The first year of ROTC provides students with an introduction to leadership and citizenship, gives exposure to personal growth and responsibility and establishes a foundation of military structure and tradition. Grade: 10-12 / Credit: 1 unit

ROTC II: This year is a continuation of ROTC I along with instruction in General Military Subjects with more structure and tradition than in ROTC I, as well as the introduction of civilian marksmanship training and land navigation training with the map and compass. This year also provides additional learning experiences in personal growth and responsibility, as well as citizenship. **Schedule this course if you took ROTC I last year**. Grade: 10-12 / Credit: 1 unit

ROTC III: Students will begin to use their leadership training as they assume positions of increased authority and responsibility. In this year, detailed instruction on personal finances is presented, as well as other preparation for life beyond high school. Credit: 1 unit. Not available – 2019-2020

ROTC IV: In ROTC IV, students bring together previous learning experiences from the MCJROTC program. Students will conduct formations & inspections, supervise training events with younger students and continue to be challenged academically with requirements for research projects, independent studies and progress reports. Credit: 1 unit. Not available – 2019-2020

Basic Weightlifting: An introductory course designed to: improve muscular strength; gain knowledge and understanding of weight training theory and practice; develop a personalized weight training program. Grade: 11-12 / Credit: ½ unit.

SCIENCE

Note: Science and Math courses should align. Specifically, you should take Algebra II with Chemistry I.

Anatomy & Physiology: As demonstrated through tests, lab investigations, assignments and projects, the student will be able to exhibit a fundamental knowledge of the human body, its anatomical structures and their functions; Analyze, evaluate and apply the concepts of body systems to his/her daily lives, to the natural world and to today's society; Use appropriate citation of outside resources to effectively communicate basic anatomical and physiological literacy; practice and give examples of the philosophy and methodology of science. This course can serve as a 4th science IF one of the other three science course requirements is NOT Biology II or AP Biology II. Prerequisite: Biology I and Chemistry I. Grade: 12/ Credit: 1 unit

Biology I: This course presents the facts of biology within a pattern of unifying concepts. Some major areas of instruction are science and society, ecology, evolution, and energy relationships in nature. Grades: 10-12/ Credit: 1 unit

Biology II: Students will develop a working understanding of basic concepts in the biological sciences (including such areas as cells, genetics, biological diversity, form and function in biology and ecological interactions); develop problem solving skills applicable to the biological sciences; gain a broad appreciation of the basic methods and aims of science, and the relationship of biology to other sciences and understand the historical and social context of biological thought and research, and the contributions of biology in social, medical and environmental issues. Students may take a CLEP test with the possibility of earning college credit. Grades: 11-12/ Credit: 1 unit. Prerequisite: Biology I and Chemistry I

AP Biology II*: Learn to think like a scientist, and become an independent investigator through student-directed laboratory investigations: pose the questions and determine the variables you want to investigate; design experiments and procedures; determine how best to present conclusions; learn about the core scientific principles, theories, and processes governing living organisms, biological systems, and natural phenomena; understand key science practices to develop explanations and predictions of natural phenomena, which will be tested and refined through laboratory investigations; develop advanced reasoning and inquiry skills as to design experiments, collect and analyze data using mathematics and other methods, and interpret that data to draw conclusions. Students must have completed Biology I and Chemistry I and received at least a B average in both. There is also a mandatory summer assignment and a \$15 mandatory lab fee. College credit for introductory science major Biology may be earned on the AP test. Grades: 11-12/ Credit: 1 unit

<u>Chemistry I:</u> This course emphasizes basic laboratory skills and problem solving technique involving a study of fundamental general chemistry concepts. Grades: 10-12/ Credit: 1 unit Prerequisite: Algebra II or concurrent enrollment in Algebra II.

<u>Chemistry I Honors</u>: If you are considering taking an AP science course in the future, you should begin your path with this course. This course involves a more in-depth discussion of general chemistry concepts. Assignments and tests are designed for the more self-directed and motivated student. Prerequisite: Algebra II or concurrent enrollment in Algebra II and A's or B's in ALL previous science courses. Grades: 10-12/ Credit: 1 unit

AP Chemistry II:* Work in groups to think analytically about problems, identify experimental questions, and design experiments to answer those questions; engage in hands-on laboratory investigation to learn chemical concepts through direct experience and observations; learn about the fundamental concepts of chemistry such as structure and states of matter, intermolecular forces, reactions, and how to use chemical calculations to solve problems; develop the ability to think clearly and express ideas with clarity and logic, both orally and in writing. Work with classmates to conduct meaningful laboratory investigations in order to observe chemical reactions and substances, interpret findings, and communicate results. Chemistry I (H) pre-requisite preferred, but teacher recommendation can substitute. If the student was enrolled in an On-Level Chemistry I course, he or she must have earned As for both semesters. If the student was enrolled in Chemistry I (H) course, he or she must have earned As and/or Bs for both semesters. College credit for introductory science major Chemistry may be earned on the AP test. Grades: 11-12 / Credit: 1 unit

AP Environmental Science*: AP Environmental Science is interdisciplinary, embracing topics from geology, biology, environmental studies, environmental science, chemistry, and geography. Students will receive a hands on analysis of tissue, water, sediment, soil, and air. Students will gain an understanding of population distributions along with human impacts to the environment. Prerequisite is Algebra I and Biology I. Students must take Chemistry along with this course if they have not taken Chemistry previously. Grades: 10-12/ Credit: 1 unit

Environmental Science: This course is designed to inform the student of environmental issues and problems focusing on the physical, biological, chemical, and social impacts of environmental concerns of the planet. This is NOT a college preparatory course. Grades: 11-12/ Credit: 1 unit

<u>AP Physics I: Algebra-Based</u>*: AP Physics 1 is an algebra-based, introductory college-level physics course. Students cultivate their understanding of Physics through inquiry-based investigations as they explore topics such as Newtonian mechanics (including rotational motion); work, energy, and power; mechanical waves and sound; and introductory, simple circuits. Class Fee: \$25. Grades: 11-12 / Credit: 1 unit.

<u>Physics I:</u> This course emphasizes the study of motion, forces, and energy while providing an opportunity for students to develop problem-solving skills to explain the laws of nature using concepts, mathematics, and graphs. Prerequisite: Advanced Math or concurrent enrollment. Grades: 11-12/ Credit: 1 unit

<u>Physical Science</u>: This course is the study of the principles and concepts applied in both chemistry and physics. Some elementary math skills are used throughout the course. Grades: 10-12/ Credit: 1 unit

SOCIAL STUDIES

<u>AP American Government*</u>: (In Lieu of Civics) AP U.S. Government and Politics provides a college-level, nonpartisan introduction to key political concepts, ideas, institutions, policies, interactions, roles, and behaviors that characterize the constitutional system and political culture of the United States. Students will study U.S. foundational documents, Supreme Court decisions, and other texts and visuals to gain an understanding of the relationships and interactions among political institutions, processes, and behaviors. They will also engage in disciplinary practices that require them to read and interpret data, make comparisons and applications, and develop evidence-based arguments. Grades: 10-12 / Credit: 1 unit

<u>AP Human Geography*</u>: (In Lieu of World Geography) The AP Human Geography course is equivalent to an introductory college-level course in human geography. The course introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine socioeconomic organization and its environmental consequences. Students also learn about the methods and tools geographers use in their research and applications. Grades: 10-12 / Credit: 1 unit

<u>AP Macroeconomics</u>*: (can be used as a 4th History) The goal of the AP Macroeconomics course is to give students a thorough understanding of the principles that apply to an economic system as a whole. Emphasis will be placed on the study of national income, the financial sector, economic performance measures, and international economics. The course is designed to prepare students to take the AP Macroeconomics Exam in May. Additionally, the rigorous workload and pace of the course will help prepare students for college level study. Grade: 12 / Credit: 1 unit

AP Psychology*: (can be used as a 4th history) Explore how psychologists use research methods and critical analysis to explore human behavior; discuss how biological, cognitive, and cultural factors converge to facilitate acquisition, development, and use of language; explore the concepts, theories, perspectives, phenomena and behaviors associated with the subfields and research areas of psychology; analyze the methods psychologists use to study various types of behavior and mental processes and evaluate the validity and significance of their contributions. There are no pre-requisite courses, although advanced writing skills are helpful. Grade: 12 / Credit: 1 unit

AP US History*: This course is a comprehensive look at political, cultural, social, economic, and diplomatic events that shaped our nation from the 14th century through the present. Events are explored through the use and analysis of documents, images, cartoons, quantitative data, and other primary sources. Students develop an understanding of major themes in U.S. history, including American identity, economic and social life, political change and continuity. Students learn to weigh evidence and develop personal interpretations while building a repository of factual knowledge regarding U.S. history. There is a heavy emphasis on developing strong reading and writing skills. A great deal of emphasis is placed on the ability to draw conclusions and use informed reasoning to present arguments clearly and persuasively in essay format. Grade: 11 / Credit: 1 unit

AP World History*: Investigate the content of world history through significant events, individuals, developments, and processes in six historical periods from approximately 8000 BCE to the present, and develop and use the same thinking skills and methods (analyzing primary and secondary sources, making historical comparisons, chronological reasoning, and argumentation) employed by historians when they study the past. The course also provides five themes (interaction between humans and the environment; development and interaction of cultures; state building, expansion, and conflict; creation, expansion, and interaction of economic systems; development and transformation of social structures) that students explore throughout the course in order to make connections among historical developments in different times and places encompassing the five major geographical regions of the globe: Africa, the Americas, Asia, Europe, and Oceania. Prerequisite – Students must have completed American History/APUSH and received at least a B average. Grade: 12 / Credit: 1 unit

<u>Civics</u>: This course studies the rights and responsibilities of citizens focusing on the constitution and our political heritage, the structure of government on the national, state, and local levels, and the political process. Grades: 10-12 / Credit: 1 unit

<u>Law Studies</u>: In this course students will study the following: the legal system, criminal law, juvenile justice, torts (civil lawsuits), and individual rights and liberties. Grade: 10-12 / Credit: ½ unit or 1 unit

<u>Psychology:</u> This course emphasizes the basic understanding of mental processes such as learning and memory using basic research practices and analysis of statistical data. Grades: 10-12 / ½ unit

Sociology: This course deals with current issues on various subjects such as government, politics, law, medicine, science, and sports. Students use the newspaper and participate in class discussions daily. (Students who take a full year are required to take the CLEP exam at the end of the course for college credit. The exam is optional for students enrolled in the ½ credit course). Grades: 10-12/ Credit: 1/2 unit or 1 unit

<u>US History:</u> This course examines the forces of change and continuity in America's history since Reconstruction. Emphasis is placed upon students understanding trends in history, their application to the modern world and key historical turning points. Grades: 11-12/ Credit: 1 unit

World Geography: This course includes a study of the interrelationship of climate, population, and land use. Grades: 10-12/Credit: 1 unit

World History: This course examines the accomplishments of man from earliest known civilization to the defeat of Napoleon in 1815, and continues the study of history from the Congress of Vienna in 1815 to present. Grades: 11-12/ Credit: 1 unit

THEATRE

<u>Theatre I:</u> This class will focus on performing on stage and will cover skills required for public speaking, improv, scene writing, monologues, and group scenes. During the course, students will study plays as literature and work to stage several productions throughout the year. Class Fee: \$30. Grades: 10-12 / Credit: 1 unit

<u>Theatre II</u>: This class is for students who took Theatre I last year and would like to take it again. The course material is the same as Theatre I, but students in this class will be able to take part in different productions throughout the year. Class Fee: \$30. Grades: 11-12 / Credit: 1 unit

Theatre Design & Technology: This class will focus on the technical aspects of theatre. Students will learn how to manage a show from behind the scenes and will learn skills required for lighting design, set design and construction, sound design, sound recording, costume design, stage makeup and special effects makeup, and visual recording. During the course, students will take on applied projects in each area through working backstage for the Acting class and aiding in other technical opportunities around the schools like assemblies and concerts. Class Fee: \$30. Grades: 10-12 / Credit: 1 unit

Denham Springs High School STEM & Robotics Center

We are excited to announce the opening of the DSHS STEM & Robotics Center in August 2019. The center will offer courses in two pathways through a partnership with LSU: Pre-Engineering and Digital Media. Three courses will be offered to our students in year one and are listed below. More courses will be added each year. The Digital Media pathway will start Year One with Digital Storytelling and advance into Coding as well as Film Production in future years. The Pre-Engineering pathway will start Year One with Introduction to Engineering Design and advance into Robotics and Drone Piloting in future years. Introduction to Computations Thinking is a class that may be taken for either pathway.

The center will be located at 1129 South Range Avenue (former location of Southside Elementary). Students will have the option of riding a bus to the center and back to DSHS each day. Students may also provide their own transportation or carpool with a friend.

The following courses will be offered at the DSHS STEM & Robotics Center for the 2019-2020 school year:

<u>Digital Storytelling (LSU Partnership)</u>: This is a project based learning (PBL) inspired course that utilizes a PBL assessment guide in addition to thoughtful integrated learning. Throughout the course, experimentation and the practice of storytelling through the lenses of multiple mediums allows students to develop narrative reasoning skills, while simultaneously giving them a realm to be creative and challenged. The course was created in response to the demand from "entertainment" industries for individuals skilled in content creation and transfer of thinking. The purpose of this course is to get our students to become creators rather than just consumers. The course focuses on content creation, specifically in the realms of: Visual, Auditory, Videographic, and Interactive Storytelling. The course also focuses on Digital Literacy, and how to become a responsible denizen. At any point throughout the course, students use information and communication technologies to find, evaluate, create, and communicate information, requiring both cognitive and technical skills. Grades: 10-12 / Credit: 1 unit

Introduction to Computations Thinking (LSU Partnership): This course introduces students to the basic ideas of computational thinking and its applications to problem solving in STEM fields. Students will use an open source, Web-based programming environment to create code for simple drawings, animations and simulations, through which they learn how to use abstraction, decomposition and pattern recognition to model problems and arrive to an algorithmic solution. Program code is presented with a dual purpose: as the main way to interact with a computer and as a proxy to organize ideas explicitly and communicate them to other people. Students taking Algebra I concurrently with this course will benefit the most, because many examples are drawn from Algebra I, so that students can visualize and manipulate the mathematical concepts in a more concrete form. Grades: 10-12 / Credit: 1 unit

Introduction to Engineering Design (LSU Partnership): This course is designed to introduce the profession, ethics, and diversity of the field of engineering to students. The course will allow students to explore the 10 primary concentrations within engineering by listening to guest speaker lectures, working on an interactive project with a team, and presenting the results of their project to the class. The majors are: Biological Engineering, Civil Engineering, Environmental Engineering, Chemical Engineering, Computer Engineering/ Electrical Engineering, Computer Science, Construction Management, Industrial Engineering, Mechanical Engineering, and Petroleum Engineering. Specifically, this course will emphasize that the engineer is a team worker who needs strong skills in technical problem solving, engineering design, ethical decision making, and communicating to diverse audiences. Grades: 10-12 / Credit: 1 unit

CLEP TESTING

For more information, please visit the school website https://www.denhamspringshs.org and look under the ACADEMICS menu.

Denham Springs High School now offers CLEP testing. The College-Level Examination Program (CLEP) offers students the opportunity to receive college credit for what they already know by earning qualifying scores on any of the offered exams. Each test is 90 minutes in length, given in a computer based format on our campus, and results are given at its completion. While there are a number of tests available, we recommend students take tests for courses in which they are currently enrolled.

Before taking a test, we recommend students and parents learn more about which CLEP credit is accepted by the prospective college. Most colleges require a minimum score of a 50 in order to earn credit, but one should refer to the college website to confirm the score or visit the following link to get more information: https://clep.collegeboard.org/started. Please check college course catalogs and websites to determine acceptance of a particular test before enrolling.

The following are courses DSHS offers and their coordinating exams:

| High School Course | CLEP Exam | |
|-----------------------|---------------------------------|--|
| English IV | College Composition | |
| US History | History of the United States II | |
| Advanced Math | College Algebra | |
| Biology II | Biology | |
| Marketing | Principles of Marketing | |
| Sociology (full year) | Sociology | |
| Spanish III | Spanish I | |
| Chemistry | Chemistry | |

UNIVERSITY ADMISSIONS POLICIES LOUISIANA BOARD OF REGENTS

MINIMUM ADMISSION STANDARDS for FIRST-TIME FRESHMEN

These are the minimum admission standards for regular freshmen admission to a Louisiana, public four-year university for Fall 2014 and after. Students should check with the specific institution for additional information about the university's requirements and process for admission.*

- 1. High School Curriculum = TOPS University

Denham Springs High School

CHANGE OF DIPLOMA TYPE CONFERENCE REQUEST

Diploma Options: TOPS University Diploma OR JumpStart Diploma

What is the difference?

The TOPS University Diploma Curriculum prepares students for entrance into a four-year university in the State of Louisiana or for a career. The JumpStart Curriculum would prepare them for a community college or technical school in the State of Louisiana or a career.

Students who "Opt Out" of the TOPS University Diploma Curriculum and switch to a JumpStart Diploma will also be required to fulfill their elective credits and earn a credential (certification) in a JumpStart pathway which will be determined at the IGP conference. The student's Individual Graduation Plan (IGP) will be revised at the conference to fit with the updated diploma option.

What is required to change Diploma Options?

Before an exemption is granted, the student, the student's parent or legal guardian and a school representative shall meet to discuss the student's progress and determine what is in the student's best interest for the continuation of his/her educational pursuit and future educational plan. At this meeting, all three parties are required to sign the TOPS University Exemption Form if the student decides to "Opt Out". Students will have one opportunity per year to change diploma types as these changes are only made during spring scheduling. Students will not be allowed another opportunity to change diploma types again until spring, 2020.

Requesting an "Opt Out" Conference with the Counselor

If you would like to schedule an appointment to discuss your student's diploma options, please complete the information listed below. The guidance secretary, Melissa Burr, will contact you to arrange an appointment. Students requesting an "Opt-Out Conference" will not submit course requests online in PowerSchool. Instead, their course selections for the 2019-2020 school year will be entered at the actual conference when the decision is made to continue pursuing a TOPS University Diploma or to change to the JumpStart diploma option.

Conference requests must be returned to the Guidance Office by Monday, March 25.
