

Information for Trapper's Regarding Bella's Promise Pet Rescue:

- Please remember Bella's works solely by donations, so vaccines, combo tests and transport per cat is about \$85 so if you can do a fundraiser for Bella's we can help with vaccines and combo tests, in order for Bella's Promise Pet Rescue to be an exit plan for trapped cats and kittens:
- (Transport Fosters are not the same as Bella's fosters. We may be able to help with vaccines and combo tests and advice, but please let these fosters know the following information, and help with food and items they may need.)
- They must be fostered indoors and safe. Resources such as Feline Fosters of Palm Beach and Project Catsnip will help find fosters.
- Cats and Kittens need to be fixed, vaccinated and combo tested negative for FIV and FELV.
- Peggy Adams will spay and neuter, vaccinate for free (Rabies as well depending on age and size.) Appointments go fast, so have whoever will be fostering needs to make appointments a month out for kittens close to 2 lbs as they must be 3lbs to fix.
- They must be social and friendly please make a video of both adults and kittens, so we can see they are friendly and social.

No Momma is left behind, if momma is feral she must be tnvr'd. If momma is friendly all the above applies as we have shelters that we work with up north that she can fly to a forever home
