Exportation Permit Application

(Application to permit the exportation of groundwater produced within Trinity Glen Rose Groundwater Conservation District (TGRGCD) boundaries, via a transportation facility, for use outside the District boundaries.)

Date: _____

Instructions: Please type or print legibly. This application is to be used for authorization to export water, via a transportation facility, for use outside the District. Chapter 9 of the District Rules governs the issuance of exportation permits. In addition to this permit, the well or wells producing water to be exported under this permit must be registered in accordance with the provisions of Chapter 5 of the District Rules.

1. Applicant

The applicant for this authorization is the well: (check all that are applicable)

_____ Owner _____ Operator _____ Property Owner

2. Application Purpose

Application is hereby made to the Trinity Glen-Rose Groundwater Conservation District for authorization to export water produced from a groundwater well(s) located within the District for use outside of the District.

3. Applicant information

Applicant: _____

Contact Address: _____

City: _____ State: _____ Zip: _____

Telephone Number: _____

Fax Number: _____

E-mail address: _____

Contact Person: _____
(If different from applicant or if applicant is a business, corporation, governmental entity, estate, trust, etc.)

Contact Telephone Number: _____

Contact Fax Number: _____

Contact E-mail Address: _____

If applicant is not the owner of the land upon which the conveyance system and/or well(s) is located, provide the landowner's contact information in the space provided below.

Landowner: _____

Address: _____

City: _____ State: _____ Zip: _____

Telephone Number: _____

Fax Number: _____

E-mail address: _____

4. Well information

Submit the required information below for each well(s) to be used in the exportation of groundwater outside the boundaries of the TGR District.

Is the well(s) to be used for exportation drilled under TGRGCD permit?

Yes _____ No _____

If yes, provide TGRGCD permit#: _____

Is the well(s) under consideration, approved as a Public Supply Well(s)?

Yes _____ No _____

If yes, provide documentation of TCEQ approval.

State Well ID Number: _____

Location of Well(s): Address: _____

City: _____ State: _____ Zip: _____

Well(s) site is located:

Latitude(DMS): _____ North Longitude(DMS): _____ West

Status of well as of application date:

_____ Operating Well (Date drilled _____)

_____ Well Completed but not operating (Date Drilled _____)

_____ Well is in the permitting process (Date Filed _____)

Annual projected production of well is _____ Acre/ft.

If more than one well is to be utilized for the exportation of groundwater, information for each well is to be submitted as an attachment to this application. This additional information must be submitted in the same format as above.

5. Quantity to be exported

Authorization to export the following quantity of water, annually, for use outside the District is requested for:

_____ Acre/ft

_____ Peak demand in Gallons per Minute per Day

_____ Storage Capacity

An exportation permit is issued for a period time in accordance with Texas Water Code, Section 36.122(h)(2) and (i). A technical description of the facilities to be used for exportation of water and a time schedule for any construction thereof must be attached.

6. Receiving location

Identify the location or location(s) that will receive water exported out of the District under this permit, i.e. County, subdivision, development, groundwater conservation district, etc.

If additional space is needed, please attach additional sheets as necessary to fully document the recipient location for water exported out of the District under this permit.

7. Proposed Use of Water Produced

Attach a statement describing the amount per use and purpose of use for which water is needed in the purposed receiving area.

8. Water Availability

Attach documentation providing the following information.

- A. The availability of water in the District and in the proposed receiving area during the period for which the water supply is requested, including:

- (1) The location of the proposed receiving area for the transported water as evidenced by a contract with the end-user, unless the applicant is the end-user; and,
 - (2) Information describing alternate sources of supply that might be utilized by the applicant, and the feasibility and practicability of utilizing such supplies.
- B. The projected effect of the proposed transfer on aquifer conditions, depletion, subsidence, or effects on existing permit holders or other groundwater users within the District, including:
- (1) A hydrogeologic report by a registered professional engineer assessing the impact of the proposed well on existing wells and the aquifer;
 - (2) Information describing the projected effect of the proposed transporting of water on aquifer conditions, depletion, subsidence, or effects on existing permit holders or other groundwater users within the District; and
 - (3) The names and addresses of the property owners, and the location of their water wells, within a two (2) mile radius of the location of the well(s).

9. Compliance with Regional Water Plans

Provide a statement of compliance with the approved regional water plan, including:

- (1) A description of how the proposed transport is listed as a water supply option in the approved regional water plan; and
- (2) A technical description of and a construction time schedule for the transportation facilities.

10. Documentation, Attachments and Fees

The following documentation, attachments and fee payments must accompany this application when it is submitted for consideration by the District.

- a. Plat or map showing location of the property and location on property of well(s) for which application is submitted.
- b. If the owner and/or the operator of well(s) is different from the property owner, provide written documentation from the property owner authorizing construction and operation of well(s).
- c. Payment of applicable fees must accompany application. The fee associated with the Exportation Permit Application Fee has been determined to be \$350.00 and must be included at the time of application submission.
- d. The applicant's water conservation plan and if any subsequent user of the water is a municipality or entity providing retail water services, the water conservation plan of that municipality or entity shall also be provided. In lieu of a water conservation plan, a declaration that the applicant and/or a subsequent user if any subsequent user is a municipality or entity providing retail water services will comply with the District Management Plan.
- e. The applicant's Drought Contingency Plan and a copy of any subsequent user's Drought Contingency Plan or a declaration that the applicant or a subsequent user will comply with District rules, policies and Board actions in drought conditions.
- f. Additional information as outlined in the application.

11. Certification

I, the undersigned applicant, hereby agree and certify that:

- a. I agree to conserve water in accordance with all applicable laws, avoid waste, protect groundwater quality and ensure water exported from the facility will be for a beneficial use;
- b. I agree to abide by the terms of the District Rules, the District Management Plan and orders of the District Board of Directors currently in effect and as they may be modified, changed and amended from time to time;
- c. I hereby certify that the information contained herein is true and correct to the best of my knowledge.
