Obama Cries & Spreads Lies

On January 5th, Mr. Hussein Obama gave a press conference on his-worthless-Executive Gun Control Order. With tears streaming down his face, he talked about the murder rates-in his hometown he has done nothing for-of Chicago. He omitted many things during his presser.

- 1) Chicago has some of the most restrictive gun laws in the country already and they don't stop crime, because criminals don't give a damn about the law.
- 2) The Executive Order only makes it more of a hassle for law-abiding Americans to obtain legal weapons.
- 3) This useless order would have stopped 0% of the mass shootings or terrorist attacks in recent American history-zip, zero, NONE!

These are indisputable facts!

This is a sneak peek of what we Americans can expect in the U.S. when the flood gates are opened for Syrian “Refugee” immigration. I assure you in every U.S. city these Muslims are settle in will inevitable witness a huge spike in sex crimes.

Is this the future we want for American women?

Did you know? You are 99.5% more likely to be stoned to death living in an Islamic community?
