INTRODUCTION

ACRE Coin is a joint proof of stake and Masternode consensus that designs to provide disruptive decentralized property-related ecosystem with a view to shift the paradigm of property rental industry. ACRE coin embraces the blockchain revolution and aims to develop and operates real estate portals and delivering the most comprehensive set of related real estate services including Airbnb concept-like as our core project followed by advertisement, marketing and legal services in our website getaway. As we know that property dealings involve meeting of face, payments for the aforesaid services will be in the form of ACRE coin via scanning of QT codes on the mobile wallets. ACRE Coin seeks to fill the hotbed of blockchain-based property rental transactions.

Setting periodical realistic targets, ACRE Coin backed by its experienced team in related-field will open a new getaway to serves as a medium of exchange for consumers, home-owners, property agents, developers, lawyers and other relevant parties. Our unique website-crypto platform shall offers property rental listings, geopolitical updates and property related information that will disrupt legacy property rental website such as AirBnB.

ACRE Coin is derived from PIVX Platform and will adopt its best standard solutions.
Since the company’s founding in 2008, there have been over 200 million total guest arrivals at Airbnb listings around the world. They chose their rooms and paid for everything online. But their beds were provided by private individuals, rather than a hotel chain. It is the most prominent example of a huge new “sharing economy”, in which people rent beds, cars, boats and other assets directly from each other, co-ordinated via the internet.

ACRE Coin wants to carve out a market for crypto enthusiasts with low-fee for the society who has to bear with the ever changing terms and conditions of AirBnB.

Targeted and effective marketing strategy will be employed by our team to provide awareness of an alternative to AirBnB.
PRACTICAL CRYPTOCURRENCY

ACRE Coin plans to create a platform with similar experience of AirBNB where besides payment of rental with its own ACRE Coin. A host sets a price. Users book, paying for rooms with ACRE Coin. Then, when guests leave and indicate they are happy with the experience, the ACRE Coins are released to the host.

Further, with ACRE Coin mobile wallet at hands, any of the transacting parties can seamlessly pay for rent and skip conventional banking institution.

A custom API will be created to allow conventional property platforms to create property postings and connect to our platforms. Co-existence and a win-win situation is key.
Property Listing

Adopting the layouts of the most user-friendly and comprehensive websites in the internet, our specialized web and mobile developer will design a property rental hub that provides visibility of the subject matter (property and price) from all over the world and the equally important dispute resolution and helpline.

ACRE’s PROPERTY WEBSITE

Website for hosts to list their property for rent and users to search for the most suitable accommodation that suits their needs.
Consumers can write unbiased review about their experience during the stay. Once ACRE coin is released to the host, consumer will be able to drop review. This ensures that each review recorded is not bogus and is independently verified.

Hosts and consumers can verify the transaction via our explorer and prevent fraud which is prevalent in conventional fiat-banking transactions.

Hosts list their property for rent via our website. Photos of the property will be prominently displayed on our website for convenience of users.
AWAARENESS & OUTREACH

ACRE TEAM is aware of the needs to project this brand to wider global audience and helping the public to understand the benefits and sustainability of this ecosystem.

To ensure that the public can truly relate to the brand and feel connected with ACRE Coin, we aim to market this ACRE Coin vide several ways:

ACRE Coin is mounted on “Cross-Planks Protocol” which achieves cross-chain communication via “planks” – a protocol that enables communication between the Participating Network and Connecting Network. Consensus across planks is achieved by “validators” whose behavior is managed by various algorithms and an incentive mechanism.

The plank’s validators are managed by people with a stake in the Connecting Network. If two or more planks validators within ACRE approve the interchain transaction, the contract will be processed. The planks’ validators are managed by people with a Stake or Masternode in the Connecting Network. If two or more planks validators within ACRE approve the interchain transaction, the contract will be processed.
ACRE Coin anchors itself on fair-rewards for each and all layers of the users of ACRE’s ecosystem, from the early adopters to the future stakeholders. As each milestones is achieved by ACRE according to its roadmap, all the stakeholders of ACRE will be rewarded accordingly.
Those who purchased ACRE Coin in pre sales will be entitled to a bonus of 10% extra on the collateral.

Stakeholder of ACRE who holds the ACRE Coin for a period of two months or more will be rewarded bonus coins of 5% of their holdings.

- Due to Masternode Holder crucial responsibility to secure the network, 85% of the block reward will go to Masternode holders.
- Eg.: if the block reward is 20 Acre Coins, 17 will be rewarded to the Masternode holder.
- In the current structure of Acre Coin, the max supply will be reached within 7 years.
- As there are more Masternodes generated daily, more of the static coin supply will be locked. With these variables, hyperinflation becomes a non-issue and the coin will retain value greatly.
- Acre Coin will reward early coin holders up to 10,000% per year.
