## The Herd is Growing

The Water Buffalos are excited to announce that we currently have membership in 22 states, 2 Canadian Provinces and Mexico! The Herd is well on its way to becoming an international organization with a great following inside and outside of our current membership. We are always looking for individuals that enjoy having a good time, riding a motorcycle and raising funds for two great organizations, Water For People and Community Engineering Corp.

In 2015, the Herd opened up membership to those that might be considering getting a motorcycle, but haven't made that purchase yet. Although, not a vested Water Buffalo, we are just as excited about our newest Calves that are supporting us and roaming with the herd.

If you would like more information on becoming part of the Ride with Purpose Organization, please visit our website [www.ridewithpurpose.org](http://www.ridewithpurpose.org). If you have any questions please feel free to email our membership committee at [membership.rwp@gmail.com](mailto:membership.rwp@gmail.com).

Since October of 2015 we have 27 new members; a combination of Water Buffalos and Calves, bringing our membership to over 90 members. Keep your eyes opened for those denim vests at conferences and events in your state!

## Million Dollar Ride

As the Herd is in the final stages of completing the logistics of multiple routes from different locations across North America, our focus is making this year's ride to ACE a memorable one. Our goal

for 2016 is to make it the "Million Dollar Ride".

# ACE<sup>16</sup>

We are determined to make

this year the milestone of surpassing the \$1,000,000 raised, since the establishment of Ride with Purpose, for water and sanitary services.

Please consider becoming a sponsor for our organization or ride with the Herd into ACE or WEFTEC!
