Israel’s Story
Over 3,000 Years ago... an indigenous people developed a thriving civilization and culture in their ancestral homeland.

Over time they were conquered by a series of aggressive foreign empires, and while some of the people stayed in their cities and communities, most of them scattered across Europe and the Middle East.
Although they flourished at times, for 1,900 years they lived as an oppressed minority, suffering expulsions, massacres, and ultimately genocide. They barely survived but never lost hope. They overcame. They started a liberation movement, went back home to join those who were already there, and built one of the most vibrant and diverse nations the world has ever seen.
That nation is Israel.

Israel’s story is proof that if you will it, it is no dream.
