

October Meeting *Thursday, October 18, 2018*

ABCD and RIT invite you to attend a tour of the RIT Civil Engineering Research Labs on October 18th. The Civil Engineering Technology program at Rochester Institute of Technology has the reputation of excellent undergraduate teaching and practice-oriented applied research. The meeting will consist of a tour of the soil and materials lab, the instructional shake table, the material testing lab and a short presentation by Amanda Bao in regards to their ongoing ABCD research project, Evaluation of Shear Strength in Deteriorated Steel Girder Bridges. Following the tour and presentation there will be a meet and greet with RIT Civil Engineering students with food provided by Dibellas. The meeting will be held on the Campus of RIT in the Engineering Technology Hall. All members, non-members and students are invited to attend.

Tour of RIT Civil Engineering Research Labs

Highlights

- Speaker: Associate Professor
Amanda Bao, Ph.D., PE
RIT
- ABCD and RIT Joint Meeting
- Tour Begins at 4:00 PM
- Location:
RIT
Engineering Technology Hall
Building 82
Use Parking Lot J
