Greetings ARMA Members & Friends!

Dear Members and Friends of the Palm Beach-Treasure Coast Chapter of ARMA,

I hope you are all doing well. Your Chapter Board Members have been hard at work gearing up for our upcoming events this Fall. We are always striving to provide practical information on the most up-to-date and useful technologies and solutions. We know there is a wealth of information available on the internet these days, but we believe networking with, and listening to, other local industry leaders allows us all to apply this knowledge to our experiences while developing the relationships that can help us throughout our careers. Our number one goal is to provide a great value to the cost of the chapter membership, and we believe the in-person interactions at events are the best way to accomplish this goal!

Thank you for your continued support of ARMA and our local PBTC Chapter. If you have any ideas, suggestions, or questions or would like to get more involved, please feel free to contact me any time at lauriev@uplandsoftware.com.

I look forward to seeing you at our upcoming events.

Regards,

Laurie VanDoezelaar
President
Palm Beach-Treasure Coast Chapter of ARMA

Last month’s Lunch & Learn was all about a different perspective. We all get so caught up on how and where we keep our documents, that we often forget how many other users need to have access to them as well. Audits are a part of the record lifecycle. Our presenter, Cecilia Guerrero, showed us what an audit is set to accomplish. We learned that audits were often ordered by Egyptian Pharaohs and that many of the accounting systems used today were implemented in the 13th century Renaissance era by Luca Pacioli. The wrap up gave us a good lesson to remember to work alongside your internal customers as well as external customers.
