

(Please send this file to all new Members after registering from you)

Welcome to my Downline at Happy Donation

You have now received your **back office incl. landing page** for free with a **value of 20 \$.**

After the start (we hope soon) you can use everything.

And even if a new prospective customer wants to register, you have to then register yourself in the back office which is easy.

As of NOW you can register your recommended partners yourself.

I have created the text for you below. You only need to enter the data of your member, copy it and send it to the support !

Please keep in mind that every NEW prospective customer must have his own e-mail address !

If someone should open **another account** he must register **a new different e-mail address and a different user name !**

Then send him this **PDF file and Word** file so that your member can immediately start recommending new people to join our program.

From the start this letter is invalid. Please remember this.

The site will be in many languages ! And who is now on Zack speaks to the people in his environment, friends, relatives, work colleagues, yes you can address everyone who wants to join in.

And believe me, everybody can use money !!!

So if you register now, you will get a free account worth 20 USD until the start.

We will get an offer for a solar energy system for houses in Germany, Europe, Asia, Africa, Indien

This will be exclusive also for our members to order also on installments payment.

Never buy electricity again. Always have electricity!

And who is level 5 in Happy Donation, gets enough money. can buy these therefore also.

If he cannot pay once more, his Happy Donation account will be blocked.

The rest of the money is paid completely by our foundation to the solar company.

And the amount is debited from the Happy Donation account until everything is paid.

Then the HD account will be opened again for the member.

I believe for thousands of people worldwide this is a reason to become a member and to work for us by simply recommending us and registering new members.

Unique \$ 20 - How awesome is that ?

Think times about it or ask times the others with you...

And this is only an offer what will come...

I'll be happy if you register a lot more people.

Always check our Telegram Chat for the latest information:

Please all the information you get, you also receive from our downline.

This can be the PDF files just to you.

I wish all of us a successful time and let the earth tremble when registering!

Best regards
