

## Psychotherapy for Moral Injury and Loss

**Category**

PTSD/TBI

**Enrollment Closing Date****Description**

The purpose of this research study is to find out more about how to effectively treat veterans who have PTSD symptoms that are troubling them and interfering with their lives. Participants will be randomly assigned to receive twelve 90-minute one-on-one therapy sessions and complete questionnaires before, during and after treatment.

**Requirements**

Must be age 18 or older. Must have served an active-duty role within the military since Sept. 2001. Must have PTSD. Must be willing to commit to weekly therapy sessions and to complete assessments over a 9-month period.

**Benefits**

Participants will receive treatments from an experience professional at no cost. Participants may experience relief from symptoms. Participants will receive payment for their time. Participants will help us learn better ways to treat PTSD.
