He ______
• A pain in the inside part of the ear.

• The body temperature is higher than normal and the heart beats fast.

• An infection in nose and throat that often causes a cough.

• Your throat is red and feels painful, especially when you swallow.

• A pain in the stomach.

• A pain you feel inside your head.

• Your neck is hard or firm.

• A pain inside your back.

• A sudden painful tightening in a muscle, often after a lot of exercise, it limits movement.
• We use **should** and **shouldn’t** to give advice or to talk about what we think is right or wrong.

• **You should** means something like **I think it is a good idea for you to do it.**

• **You shouldn’t** means something like **I think it is a bad idea for you to do it.**

• **Should** is used to express the opinion of a speaker and often follows **I think** or **I don’t think.**

• **Let’s exercise should and shouldn’t.**

1. She had a headache. She _________ take a paracetamol.
2. He has a cold. He _________ drink cold drinks.
