ABOUT

Half Hippy is a conscious lifestyle brand that is rooted in the philosophy of having fun and being good to our bodies. It was founded by two best friends, Marian Miranda and Upahar Rana, and began with their genuine love for natural living and balancing that with the struggles of fast-paced life in NYC. It's all about making it to yoga, slurping up green juices, but every once in awhile indulging in a 4am slice of pizza after a night out!
