

# Michiana-Astro.org

1. Cut on the dark lines of the Star Wheel and on the Night Sky Treasure Map.
2. Fold on the dotted line on the Night Sky Treasure Map. The words should be on the outside.
3. Put the Star Wheel inside the Treasure Map and line up the holes.
4. Put a paper fastener through the two holes and spread the prongs.
5. Turn the Star Wheel so that this month shows at the bottom in the middle.
6. The constellations you see on the star wheel can be seen at about 8:00 PM this month.
7. Turn the Star Wheel clockwise to show the sky earlier than 8:00 PM. Turn it the opposite direction for later in the evening.

## Directions

# Night Sky Treasure Map

About 8:00 PM

later

earlier
