

AstroCamp

AstroCamp is a stargazing adventure for youths aged 9-13 at YMCA Camp Eberhart. For one week, kids explore astronomy and constellations, then come out at night to find deep space objects with 8-inch telescopes.

- Enjoy regular camp activities in the morning and astronomy activities in the afternoon.
- Learn constellations by day under a Starlab and by night under the firmament.
- Astro imaging and processing for advanced campers.
- 2015 session is July 12-18
- Register through YMCA Camp Eberhart
- See www.astrocamp.us (as in “Astro Campus”).
