Shairu Gems HQ

Project Details

Client
Shairu Gems Ltd

Location
Surat, India

Area
2500 sqm

Date
2011

About:

The landscape of Shairu Gems factory, Surat is an attempt at creating natural spaces where no space exists. The geometry of the landscape takes inspiration from the gems polishing activity of the factory and is manifested through natural stone patterns in different kinds of finishes. The landscape rises from the ground and climbs onto the building facade, creating an entire aesthetic display and ecosystem on the vertical walls and higher levels where space is available.

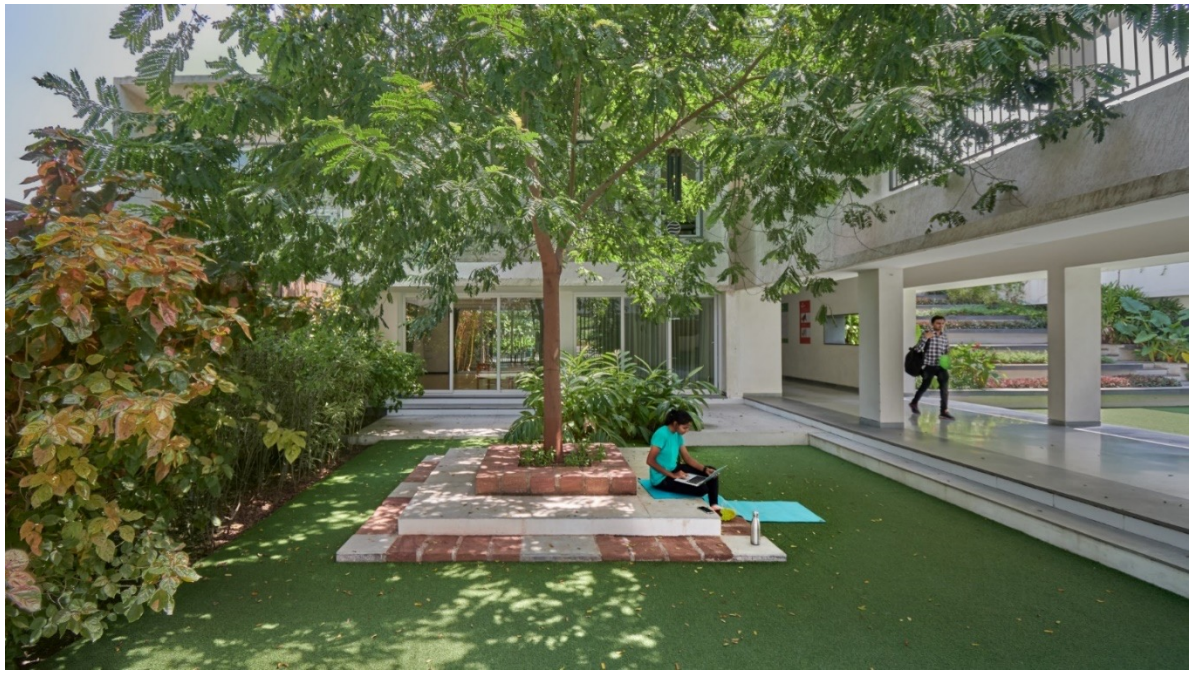

Scope of work :

Earthscapes prepared the Concept Design, Schematic Design, Design Development, Tender drawings and Specifications along with periodic site visits during installation stages.

LTM & LSM HQ

Project Details

Client
Lemon Technomist P Ltd
Location
Surat, India

Area	**Date**
8000 sqm	2011

About:

The landscape of LTM & LSM Factory, Surat is an attempt at land-art. The client brief was to create a forest as well as demonstrate the cutting edge technologies being developed at the factory cum research unit. The landscape takes inspiration from the client's imaging process of taking a raw material and making an aesthetic art piece from it. The landscape is a series of mounds rising in height as one views them from the entrance. The mounds are cladded with natural stone at various locations and give a feeling of arising from the ground with the stone. The landscape becomes a journey with integrated seating wherein many a small get-togethers, brainstorming sessions and solitary thinking can be realized.

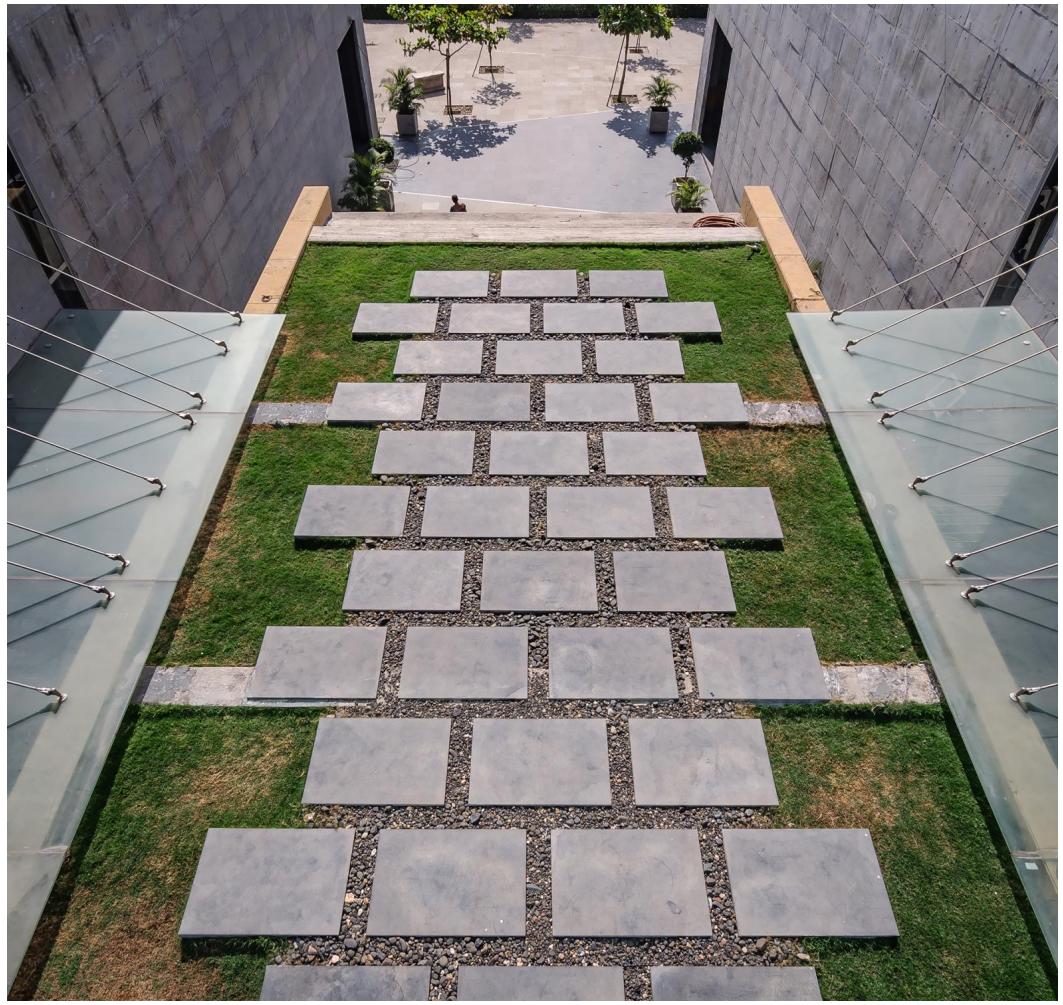

Scope of work :

Earthscapes prepared the Concept Design, Schematic Design, Design Development, Tender drawings and Specifications along with periodic site visits during installation stages.
