

Bus Schedule

Public buses are not automatically the cheapest option but may be a great way to get around Costa Rica if you've got the time to explore.

The best buses (fewest stops, fewest connections, fewest station changes, fewest layovers) are shown on the schedule below.

There are over 160 destinations on this bus schedule so it's much easier to search than scroll through all of them (how to search webpage contents on any device).

If the trip you're trying to take is not listed there is no direct service and you probably have to go to San José or another hub to make a connection (see below for routing suggestions).

Skip down to "Getting Tickets" or go to the "San Jose Bus Station Map" if you already know when you're headed where and just need logistics information.
