Workshop on
Open Data Access and Harmonisation by a Virtual Hub – ENERGIC OD solutions
Kehl, Germany, 4th September 2017
ENERGIC OD Project

European NEtwork for Redistributing Geospatial Information to user Communities - Open Data

Oct 2014 – Sep 2017
Co-funded by the European Community under the **ICT Policy Support Programme** (ICT PSP) as part of the Competitiveness and Innovation Framework Programme.

To address a problem of heterogeneity of user and system requirements to spatial data and open data dispersal

Brokering approach to open data provision

Virtual Hubs as a single data access tool

Validation of the VH solution by 10 innovative applications

Business plan for future use of the Project’s results mainly for SMEs
Open data in focus of the INSPIRE

Initial idea of INSPIRE was to provide an open access to spatial data

The issue of open data delayed signing of INSPIRE directive by one year

INSPIRE implementation process opened a lot of restricted access data to the public
