_____	Regular trap 6

## Judges Discretion

\_\_\_\_\_ + or - 3 points

## Totals

First Cow \_\_\_\_\_  
(Optional) Second Cow \_\_\_\_\_

## TOTAL SCORE

\_\_\_\_\_

3 Man Doctoring - Time limit 3 minutes.

First team member heads a designated calf. The header should stop and face the cow up to demonstrate control. The second team member will then heel the calf. The third team member will dismount and set ropes. Time stops when the calf is stretched. Once first cow is complete the run is considered qualified, but teams may rope a second cow with the remaining time. Points or negative points will accumulate as on the first run. If the first cow is not complete the result is a no time.
