

Revised Statement

March 27, 2019

We take the ongoing parental concerns seriously and want our families to feel comfortable in their school.

We have been working with Sprint to address the concerns of the community and have developed solutions to relocate the cell site as quickly as possible.

Ripon Unified has worked with Sprint to take immediate action. As part of the relocation process, Sprint has turned off the cell tower at Weston Elementary School and is moving forward with leasing, permitting and deploying a new site.
