

## In a Three-Room House (Across the Ocean)

I walked across the ocean to the side of the world  
To see the sky light up and watch the clouds unfurl  
I found a little land and it was full of love  
Not much of anything else, but maybe that's enough

I found love on the ocean  
I found God on the ocean  
I found love on the ocean

I walked a million miles, ten hundred thousand days  
And never left the land where I was sure to stay  
The colors, shapes, and faces filled my head with light  
Who knew to dance with death could bring you so much life?

I found love on the ocean  
I found God on the ocean  
I found love on the ocean shore

I found love on the ocean  
I found God on the ocean  
I found love on the ocean

I found the hope to try across the ocean  
Never felt so alive and such emotion  
My heart will still survive across the ocean  
I found the hope to try across the ocean
